Santa Fe, NM 87505

Ref: Commingling Order # PC-283
 Covers Blinbry, Montoya, Justis Fusselman, McKee,
 Tubb Drinkard and Ellenburger Pools

Attention: David Catanack

Dear Mr. Catanack:

Arch Petroleum Inc. respectfully requests administrative approval for an amendment to the above commingling order PC-283 to add the Justis Abo Pool. Our Learcy McBuffington well number 9 has been recompleted in the Justis Abo Pool with a small amount of oil. This amendment will eliminate the expense of maintaining a separate battery for the condensate production.

Attached is a worksheet showing the last two months production, gravity and value of oil currently commingled together with the change that will be in effect with the new production added to the battery.

Your early attention to this will be appreciated as this new production is being held in a frac tank. The production will continue to be determined by periodic well tests.

If you have any question, please call me at 915-685-1961.

Sincerely,

Bobbie Brooks
Production Analyst
