**Re: Exception to Rule 309-A  
Administrative Approval to Lease Commingle  
G. L. Erwin "A" Federal and G. L. Erwin "B" Federal NCT-2 leases  
Unit Letters I - P, Section 35, Township 24S, Range 37E  
Lea County, New Mexico**

Dear Mr. LeMay,

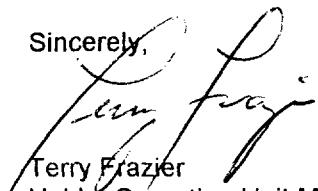

Texaco Exploration and Production Inc. respectfully requests administrative approval to commingle production from the G. L. Erwin "A" Federal and the G. L. Erwin "B" Federal NCT-2 leases. The production from both leases would be commingled in a common facility located in unit letter O, section 35, Township 24S, and range 37E.

At this time, Texaco operates storage facilities on the G. L. Erwin "A" Federal lease and the G. L. Erwin "B" Federal NCT-2 lease. However, the facility located on the Erwin "A" lease lacks sufficient capacity to accommodate all fluids produced from that lease. In an effort to avoid major overhauling expenses on the Erwin "A" facility, Texaco proposes to re-route production from the Erwin "A" lease to the Erwin "B" lease, where a modified facility will be able to accommodate production from both leases.

For additional information, please refer to the attached acreage plats, facility diagrams, facility descriptions, area maps, and lists of mineral interest holders.

All mineral interest holders have been notified of this proposal by copy of this package sent by certified mail. If you have additional questions concerning this proposal, please contact Darrell J. Carriger at (505) 397-0426. Thank you for your consideration of this proposal.

Sincerely,

Terry Frazier

Hobbs Operating Unit Manager

The following informational items are required by Rule 309-B (administrative approval for lease commingling).

1) Production from the G. L. Erwin "B" Federal NCT-2 lease is all surface commingled according to Administrative orders PC-80 + amendments, DHC-709, and DHC-274.

Production from the G. L. Erwin "A" Federal lease is commingled according to administrative order PC-82 + amendments.

**(Attached are copies of the above orders)**

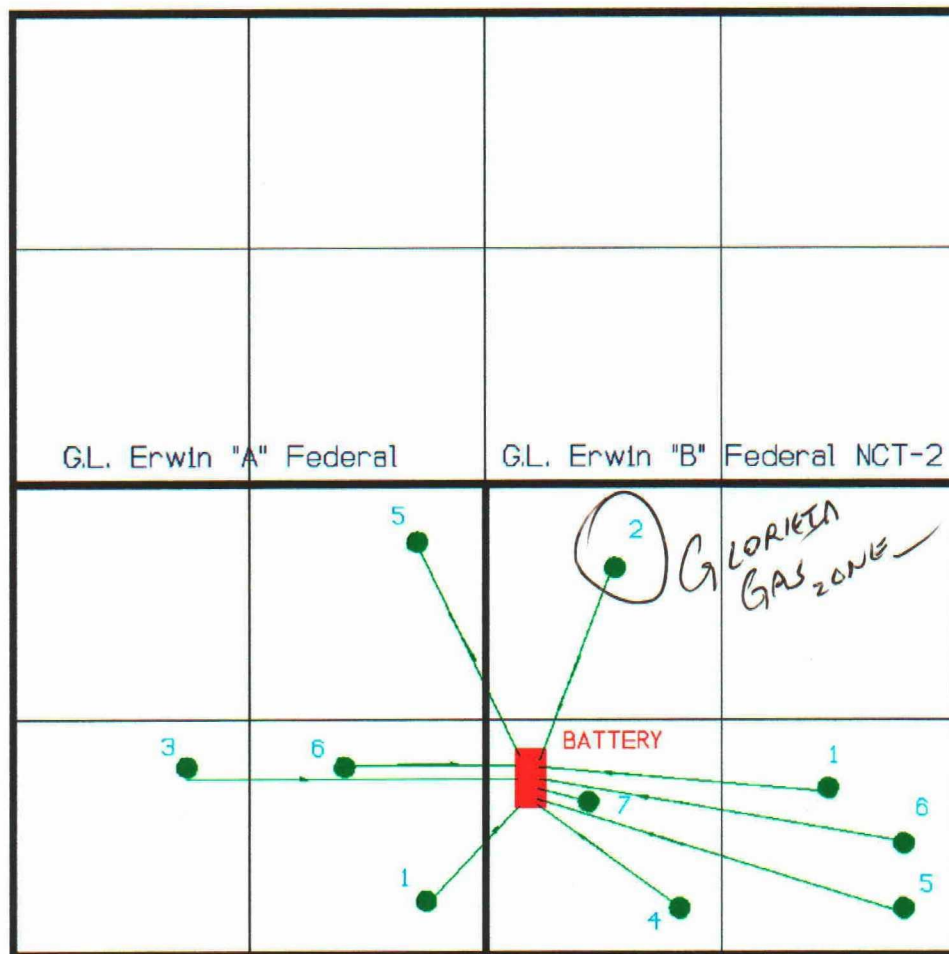

2) The facility installation is in compliance with the "Manual for the Installation and Operation of Commingling Facilities", which is published by the NMOCD.

3-4) All mineral interest holders and transporters have been notified of this proposal by copy application sent by certified mail.

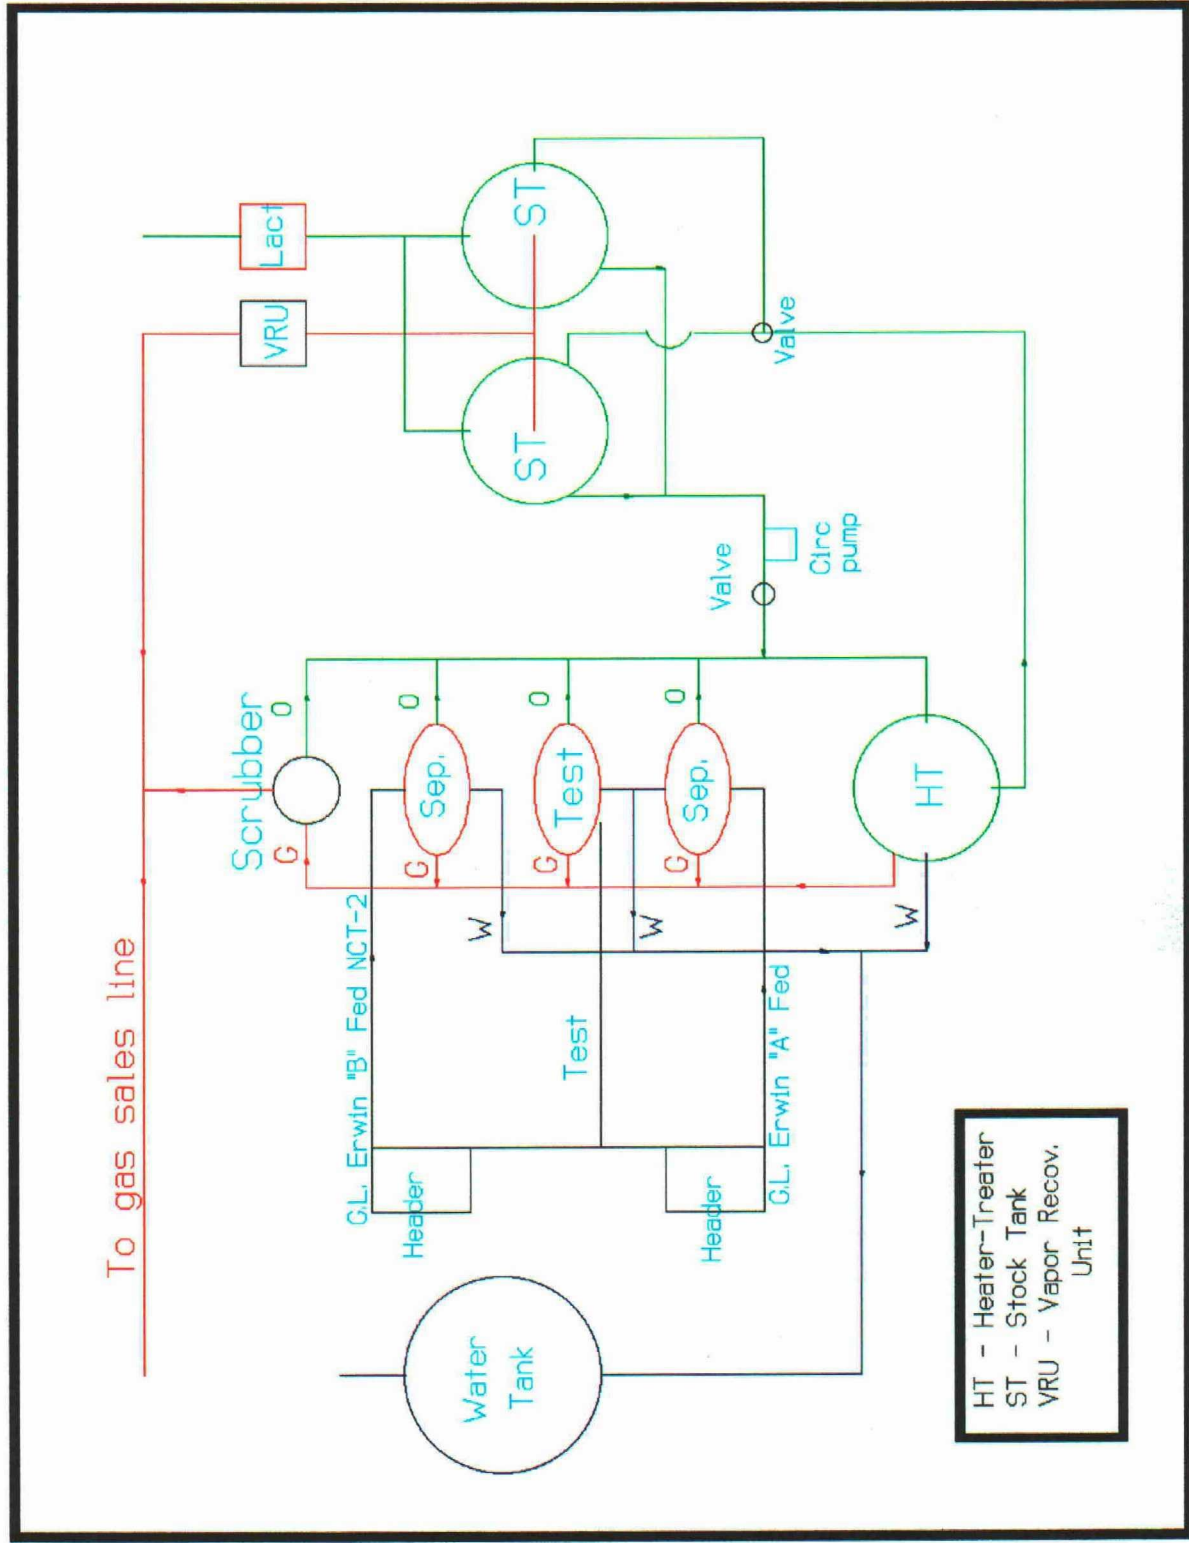

5) In this case, where there is diversity in royalty interest, the metering and storage facilities will be in compliance with the "Manual for the Installation and Operation of Commingling Facilities".
