Dear Mr. Hill:

We have received your letter of March 30, 2000, wherein you have requested our approval to amend the New Mexico Oil Conservation Division Order PLC-123 to commingle production from the above-captioned wells and to include any other new drilled wells in the W/2 of Section 30 (E-5229-7) into the Remuda Basin Central tank Battery located in the SW/4SE/4 of Section 19-23S-30E

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries as a result of your proposed operation, your request is hereby approved. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division and the Bureau of Land Management.

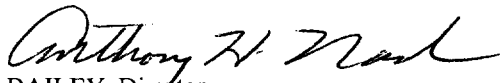

Your \$30.00 filing fee has been received.
