Attn: Surface Commingling Department

The Wiser Oil Company as operator of the following wells and leases in Lea County, New Mexico, hereby requests permission to commingle all oil production from same. Schematics of both the current installation and the proposed installation are attached. In addition, we have enclosed a plat for your review.

We are selling all oil production to EOTT Energy Operated under the same contract (see table below). Monthly well tests will be conducted in order to allocate production as accurately as possible. All gas production will be metered separately.
