Supplemental Information
Re: Dugan Production's 8-17-98 Application Requesting Approval for
Surface Commingling, plus Off-lease Measurement and Sale of Produced Natural Gas
Rusty Chacra Gas Gathering System Operated by Dugan Production Corp.
Sandoval County, New Mexico

Dear Ms. Wrotenbery, Mr. Powell, and Mr. Otteni:

In the captioned application we did not describe how oil production from wells connected to the Rusty Chacra Gas Gathering System would be handled. There are currently six wells producing from the Gallup formation (Alamito, Rusty and South Rusty Gallup oil pools) and during 1997 production averaged 1.0 BOPD plus 15.0 MCFD per well. There is no oil production associated with the 29 wells producing from the Chacra formation.

All oil production will be separated, stored and sold at each well site. There will be no commingling of oil production. Only natural gas produced in association with the oil will enter the Rusty Chacra Gas Gathering System and be subject to our application for surface commingling and off-lease measurement.

Should additional information be needed or there be questions, please let me know.

Sincerely,

A handwritten signature in cursive script, appearing to read 'John D. Roe'.

Description: SW/4 NE/4 of Section 16, Township 22 North, Range 7 West, NMPM,

all in Sandoval County, New Mexico.

Each well and/or lease shall be equipped with metering equipment which will be used to allocate gas volumes recorded at the CDP sales meter to the individual wells for determining individual well production as described in the application.

NOTE: The commingled natural gas production shall be delivered to a CDP sales meter on El Paso Field Service's Pipeline in the SE/4 NW/4 of Section 12, Township 22 North, Range 7 West, NMPM, Sandoval County, New Mexico.

Administrative Commingling Order PLC-147

Dugan Production Corp.

October 26, 1999

Page 3

NOTE: Oil production shall be separated, stored, and sold at each wellsite.

NOTE: This installation shall be installed and operated in accordance with the applicable provisions of Rule 309-B of the Division Rules and Regulations and the Division "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.

FURTHER: The operator shall notify the supervisor of the Aztec district office prior to implementation of the commingling process.

PROVIDING: Validation of this authority shall be accomplished by like approval by the U.S. Bureau of Land Management and New Mexico Commissioner of Public lands.

DONE at Santa Fe, New Mexico, on this 26th day of October, 1999.

LORI W OTENBERY,
Division Director
