RE: Application for Surface Commingling and Off Lease Gas Sales

Silverstrand State No. 1
Sec. 2, T-17-S, R-34-E
660' FNL & 1980' FWL
Lea County, New Mexico
North Vacuum; Abo
(02-61762)

Willowpeg State No. 1
Sec. 35, T-16-S, R-34-E
1980' FNL & 1980' FWL
Lea County, New Mexico
North Vacuum; Atoka - Anderson
(02-86820)

Mr. Ashley:

Marathon Oil Company respectfully requests the State of New Mexico Oil Conservation Division to grant administrative approval for exemption of Rule 303.A and 309.A to sell the Silverstrand State No. 1 gas off lease and surface commingle the gas with the Willowpeg State No. 1.

The Willowpeg is a 175 MCFD flowing gas well and the Silverstrand is a rod pump well which produces 30 BOPD. Gas from the Willowpeg is currently being sold on location. The Silverstrand gas is currently not being sold, but has increased to a marginally economic rate tested at 17 MCFD. To increase revenue Marathon Oil Company proposes to lay a gas line from the Silverstrand to the Willowpeg. Gas will be metered on the Silverstrand location before commingling with the Willowpeg gas prior to the gas sales meter. The subtraction method will be utilized to calculate the Willowpeg production.

It should be noted that there is a diversity of ownership between the leases. However, the proposed production operation is in accordance with the applicable provisions and all necessary parties have been notified by certified mail.

Please find attached a lease commingling plat and a production facility schematic. Please note that the value of the gas will not be adversely affected.

If you have any questions or comments, please advise.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Andrew J. Schwandt'.
