Dear Mr. Schwandt:

We have received your letter of December 14, 1999 wherein you requested our approval to surface commingle of the production from the above-referenced wells.

We understand that gas will be metered on the Silverstrand location before commingling with the Willowpeg gas prior to the gas sales. The subtraction method will be utilized to calculate the Willowpeg production. Oil production will be measured individually and sold at each lease.

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries as a result of your proposed operation, your request is hereby approved. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division.

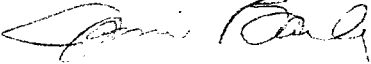

Please submit your \$30.00 filing fee.

Please contact Ms. Debbie Padilla of our Right-of-Way Section at 827-5729 regarding a right-of-way through the SE/4NW/4, E/2SW/4 of Section 35-16S-34E. Our approval is contingent upon Marathon Oil Company securing the appropriate right-of-way through Section 35.

If you have any questions or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Very truly yours,

RAY POWELL, M.S., D.V.M.
