Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Attention: Mr. J. E. Kapteina

Gentlemen:

Your letter of November 1st has been received concerning our request to expand our Twin Lakes flood in the Artesia Pool.

Enclosed is a copy of a letter handed Graridge Corporation in which they grant their consent as offset operator to the unorthodox location as well as to the other locations planned.

Yours very truly,

KERSEY & COMPANY

The Graridge Corporation  
P. O. Drawer B  
Artesia, New Mexico

**ILLEGIBLE**

Gentlemen:

Herewith is enclosed a plat showing the present producing and injection wells on the Twin Lakes flood in the Artesia Pool.

We plan to put on injection at this time wells No. 7, 12 and 13.

No. 7 is an old plugged well located 1316' North of the South line and 270' East of the West line of Section 28-18-28.

No. 12 is to be drilled 1310' North of the South line and 1310' East of the West line of Section 28-18-28.

No. 13 is to be drilled 1330' North of the South line and 2310' East of the West line of Section 28-18-28.

Inasmuch as these wells will be adjacent to your leases, we would like your permission to add these for injection.

If you have no objection to this proposed expansion please sign and return one copy of this letter to us.

Yours very truly,

KERSEY & COMPANY
