*ADMINISTRATIVE ORDER NO. WFX-655*

***APPLICATION OF TEXACO EXPLORATION & PRODUCTION, INC. TO EXPAND ITS  
WATERFLOOD PROJECT IN THE RHODES-YATES-SEVEN RIVERS POOL IN LEA  
COUNTY, NEW MEXICO***

**ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION DIVISION**

Under the provisions of Division Order No. R-4521, Texaco Exploration & Production, Inc. has made application to the Division on February 3, 1994 for permission to expand its Rhodes Yates Unit Waterflood Project in the Rhodes-Yates-Seven Rivers Pool in Lea County, New Mexico.

**THE DIVISION DIRECTOR FINDS THAT:**

- (1) The application has been filed in due form.
- (2) Satisfactory information has been provided that all offset operators have been duly notified of the application.
- (3) No objection has been received within the waiting period as prescribed by Rule 701(B).
- (4) The proposed injection well is eligible for conversion to injection under the terms of Rule 701.
- (5) The proposed expansion of the above referenced waterflood project will not cause waste nor impair correlative rights.
- (6) The application should be approved.

**IT IS THEREFORE ORDERED THAT:**

The applicant, Texaco Exploration & Production, Inc., be and the same is hereby authorized to inject water into the Yates-Seven Rivers formation at approximately 3093 feet to approximately 3253 feet through 2 3/8-inch plastic lined tubing set in a packer at approximately 3040 feet in the following described well for purposes of secondary recovery to wit:

*Rhodes Yates Unit Well No. 1  
1980' FSL & 660' FEL (Unit I)  
Section 21, Township 26 South, Range 37 East, NMPM.*

**IT IS FURTHER ORDERED THAT:**

The operator shall take all steps necessary to ensure that the injected water enters only the proposed injection interval and is not permitted to escape to other formations or onto the surface.

Prior to commencing injection operations, the applicant shall re-enter and re-plug the Krupp and Flaherty Moberly Well No. 1, located in Unit I of Section 21, Township 26 South, Range 37 East, NMPM, in a manner satisfactory to the supervisor of the Division's Hobbs District Office.

Prior to commencing injection operations into the well, the casing shall be pressure tested from the surface to the packer setting depth to assure the integrity of said casing.

The casing-tubing annulus shall be loaded with an inert fluid and equipped with a pressure gauge at the surface or left open to the atmosphere to facilitate detection of leakage in the casing, tubing or packer.

The injection well or system shall be equipped with a pressure limiting device which will limit the wellhead pressure on the injection well to no more than 619 psi.

The Director of the Division may authorize an increase in injection pressure upon a proper showing by the operator of said well that such higher pressure will not result in migration of the injected fluid from the Yates-Seven Rivers formation. Such proper showing shall consist of a valid step-rate test run in accordance with and acceptable to this office.

The operator shall notify the supervisor of the Hobbs district office of the Division of the date and time of the installation of injection equipment and of the mechanical integrity test so that the same may be inspected and witnessed.

The operator shall immediately notify the supervisor of the Hobbs district office of the Division of the failure of the tubing, casing or packer in said well and shall take such steps as may be timely and necessary to correct such failure or leakage.

*Administrative Order WFX-655*  
*Texaco Exploration & Production, Inc.*  
*February 21, 1994*  
*Page 3*

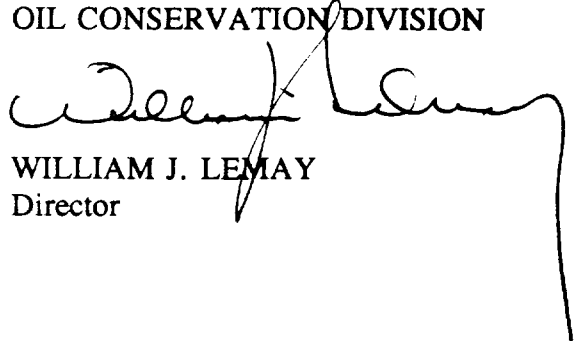

---

The subject well shall be governed by all provisions of Division Order No. R-4521, and Rules 702-706 of the Division Rules and Regulations not inconsistent herewith.

PROVIDED FURTHER THAT, jurisdiction of this cause is hereby retained by the Division for the entry of such further order or orders as may be deemed necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of the operator to conduct operations in a manner which will ensure the protection of fresh water or in a manner inconsistent with the requirements set forth in this order, the Division may, after notice and hearing, terminate the injection authority granted herein.

DONE at Santa Fe, New Mexico, on this 21st day of February, 1994.
