> Administrative Approval -Re: Salt Water Disposal Well

> > Bilon Halley

Dear Sir:

Attached are three copies of Commission Form C-108 with accompanying plat and diagrammatic sketch of the proposed disposal well seeking authority to drill and complete a salt water disposal well for the Blinebry-Drinkard SWD System. At the present, 22 operators with 339 wells are committed to the System.

To dispense with the 15 day waiting period, we have also attached. waiver of objection from the six offset operators and the surface owner of the land. The owner of the oil and gas lease, Campbell & Hedrick was sent a copy of the Form C-108 and waiver request on August 28, 1968. Mr. Joe Campbell telephoned AGUA, INC. and offered their well located in the NW/4 NE/4 Section 35, Township 22 South, Range 37 East, for sale for a disposal well. Since it is poorly equipped for disposal, this offer was rejected by AGUA, INC. Joe Campbell was contacted again in person on September 12, 1968. Campbell & Hedrick was sent a letter dated September 24, 1968, a copy of which is attached asking for the waiver and it has not been received to date.

We suggest that the Conservation Commission contact Campbell & Hedrick in regard to their delay in giving the waiver. The drilling of this disposal well already has been delayed two months by surface land owners in this area; and another 15 day waiting time will further delay this disposal project.

Page 2

Administrative Approval - Salt Water Disposal Well

We request that administrative approval be given this application for disposal for our Blinebry-Drinkard SWD Well H-35.

Respectfully submitted,

AGUA, INC.

W. G. Abbott

Manager

Re: Salt Water Disposal

Well Waiver

Gentlemen:

As indicated in our letter of August 28, 1968, AGUA, INC. is planning to drill a salt water disposal well, SWD-H-35, to be located 1,872 feet from the north line and 233 feet from the east line of Section 35, Township 22 South, Range 37 East, Lea County, New Mexico.

This well was discussed with Mr. Campbell in Midland on September 12, 1968. If you have no objections to this well, please sign and return the enclosed Waiver of Objection in order that our application may be submitted to the New Mexico Oil Conservation Commission.

Your well, located in the same are may be subitable for conversion at a later date when further disposal capacity is required.

Yours very truly,

AGUA. INC.

W. G. Abbott Manager

Attn: Mr. W. G. Abbott

Dear Mr. Abbott:

I have your letter of August 28, in regards to Salt Water Disposal well H-35, which you plan to drill, in Section 35, Township 22 South, Range 37 East, Lea County, New Mexico. We have no objections to your well being drilled; however, the 6200' well Western Oil Fields, Inc., drilled in the SE/4 of the NW/4 of Section 36, one-half mile east of your proposed well, could be used, as the casing has not been pulled.

If you are interested in using this well we could possibly negotiate a sale for the well or a disposal agreement which would result in a savings to your company. Please advise.

Sincerely yours,

Melvin F. Endicott
