Re: Administrative Order SWD-209  
Wiley Well No. 3, Unit K,  
Section 9, Township 21 South,  
Range 38 East, Lea County,  
New Mexico

Dear Mr. Elliott:

Reference is made to your application of February 15, 1978, for conversion of the subject well from a waterflood project injection well to salt water disposal. It is my understanding that the well is to be used only for the disposal of relatively small volumes (approximately 15 barrels per day) of produced salt water into the San Andres formation which was the original injection zone.

The subject well originally authorized as an injection well by Commission Order No. R-3539, is hereby reclassified as a salt water disposal well.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Joe D. Ramey", written over a circular stamp.  
JOE D. RAMEY
