SUBJECT: Fresh Water in Sec. 28, T17S,R32E

Dear Mr. Stamets:

Mr. Jim Wright with the State Engineers Office in Roswell advised me that there is fresh water in the Triassic around Section 28, T17S, R32E. This fresh water should be protected.

Very truly yours,

OIL CONSERVATION DIVISION

Gentlemen:

Convert to SWD. Queen "B" Well No. 36, Section 28, T-17S, R-32E,  
Lea County, New Mexico

---

Conoco Inc. has made application to the New Mexico Oil Conservation Division to convert to saltwater disposal its Queen "B" Well No. 36, located 554' FN&WL of Section 28, T-17S, R-32E, Lea County, New Mexico. The purpose of this letter is to inform you of our application, since the surface at the above location is owned by the United States of America.

Also attached for your information are details concerning our application, including NMOCD Form C-108 and attachments. Unless an objection is filed with the NMOCD within 15 days, we are requesting their approval by copy of this letter.

Very truly yours,

HAI:rej

Attention Mr. Ron Johnson

Gentlemen:

Convert Queen "B" Well No. 36 to Salt Water Disposal

In response to our phone conversation, today, concerning our application to convert Conoco's Queen "B" Well No. 36 to SWD, the following information is furnished as it pertains to Form C-108:

- VIII - The lower Wolfcamp, into which we will inject, is Dolomite, white to tan, fine to coarse crystalline with some vugular porosity. The depths of the formations and perforated intervals are shown on the copy of the log section attached to our application.
- XII - There are no known sources of underground drinking water in the area of this application, not even a windmill within a mile, therefore no evidence of open faults or any other hydrologic connection to any underground source of drinking water.

If additional information is needed, please advise.

Very truly yours,

  
H. A. Ingram  
Conservation Coordinator
