Attn: Daniel S. Nutter

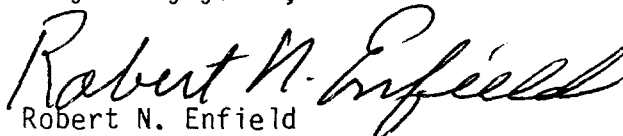

Dear Dan:

As per our conversation, attached hereto are two plats showing my full stream gathering system from Unit A, Section 18, Township 19 South, Range 26 East, to separation and storage area located in Unit J Section 12, Township 19 South, Range 26 East.

This off-lease storage is necessary as the well in section 18 is in the Pecos River flood plain of the Lake McMillan reservoir and the Bureau of Reclamation requires that I put my batteries at an elevation of at least 3285.3. The location I have chosen for this off-lease storage is the closest point having the required elevation.

It is requested that I be granted permission to have off-lease storage.

Very truly yours,

Robert N. Enfield
