RE: Surface Commingling, Lease Commingling,
Off Lease Storage & Measurement
North Dagger Draw Upper Penn Pool
Eddy County, New Mexico

Dear David:

Yates Petroleum Corporation respectfully requests administrative approval to add the Lorene ANN #1, located 810' FNL & 660' FWL (NWNW) of Section 28-T19S-R25E, Eddy County, New Mexico (a new well - fee land) to existing Order No. CTB-~~379~~, for surface commingling, lease commingling, off lease sales and measurement. Order No. CTB-~~379~~, approved December 1, 1993, authorizes same for the following leases:

380

Hooper AMP #1
Unit M, 820' FSL & 660' FWL
Section 21-T19S-R25E
Eddy County, New Mexico
Fee Lease

Hooper AMP #2
Unit E, 1980' FNL & 660' FWL
Section 21-T19S-R25E
Eddy County, New Mexico
Fee Lease

Patriot AIZ Com #3
Unit P, 760' FSL & 660' FEL
Section 20-T19S-R25E
Eddy County, New Mexico
Fee Lease/CA No: NMNM90973

The production from the Lorene ANN #1 will be transported prior to measurement to a common tank battery located at the Hooper AMP #1 location. A map labeled, Attachment I, is enclosed for your information.

The purpose of this off-lease storage and surface commingling is to reduce operation costs for storage and treating, thereby extending the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to build separate facilities for each well. This will greatly increase costs and shorten the economic life of the well(s).

Because working interests for the wells are different, oil from each of the wells will be measured by positive displacement, temperature compensated metering equipment prior to surface commingling. Gas from the wells will also be metered separately. This metering will ensure that all production from each of the wells is equitably accounted for with no significant effect on your revenue. The production from the same production zone which is the Canyon.

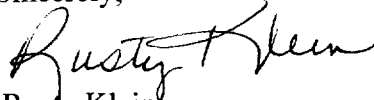

In accordance with the Oil Conservation Division's Rules 303-B, 309-B and 309-C, the following diagrams and maps are enclosed for your information:

Attachment II A diagram of the proposed measurement equipment, separators and storage tanks in accordance with the "Manual for Installation and Operation of Commingling Facilities".

Attachment III Notification of working interest, royalty interest and overriding royalty interest owners of the proposal to commingle production (list enclosed).

If you should have any questions or need further information, please give me a call at 505-748-1471.

Sincerely,

Rusty Klein
Production Clerk
