RE: Surface Commingling, Lease Commingling
and Off-Lease Storage
North Dagger Draw Upper Penn Pool
Eddy County, New Mexico

Dear Mr. LeMay:

Yates Petroleum Corporation respectfully requests administrative approval to commingle production from three wells into a common tank battery and to permit production from each well to be transported prior to measurement to another well for storage thereon. It is proposed to commingle the production from the following wells:

Thomas AJJ #3
1980' FSL & 1980' FEL (Unit J)
Section 8-T19S-R25E
Eddy County, New Mexico
Fee Lease

Roy AET #4
660' FSL & 1980' FEL (Unit O)
Section 8-T19S-R25E
Eddy County, New Mexico
Fee Lease

Warren ANW Federal #1
1980' FSL & 660' FWL (Unit L)
Section 9-T19S-R25E
Eddy County, New Mexico
NM-1372

The production from the three wells will be commingled into a common storage facility located on the Thomas AJJ #3 location. A map labeled Attachment I is enclosed for your information.

The purpose of this off-lease storage and surface commingling is to reduce operating costs for storage and treating and thereby extend the economic life of each well. Without approval for utilizing existing batteries on adjacent leases, it will become necessary to build separate facilities for each well. This will greatly increase costs and shorten the economic life of the well.

Off-Lease Storage, Etc.:

Page 2:

January 6, 1994

Because working interests for the proposed wells are different from the well where the proposed storage facilities are located, oil from each of the wells will be measured by positive displacement, temperature compensated metering equipment prior to surface commingling. Gas from the wells will also be metered separately. This metering will ensure that all production from each of the wells is equitably accounted for with no significant effect on your revenue. The production is the three wells will be from the same producing zone which is the Canyon.

In accordance with the Oil Conservation Division's Rules 303-B, 309-B and 309-C, the following diagrams and maps are submitted for your information.

Attachment II A diagram of the proposed measurement equipment, separators and storage tanks in accordance with the "Manual for Installation and Operation of Commingling Facilities".

Attachment III Notification of working interest owners of the proposal to commingle production

Attachment IV Notification to the Bureau of Land Management

Yates Petroleum Corporation appreciates your cooperation in this matter. If you should have any questions or need further information, please give me a call at 505-748-1471.

Thank you.

Sincerely,

Rusty Klein
Production Clerk

Continued:

The proposed operation is described in detail on the attached diagrams.

A map is enclosed showing the lease numbers and location of all leases and wells that will contribute production to the proposed commingling/common storage facility. All unitized/communitized areas, producing zones/pools are also clearly illustrated.

A schematic diagram is also attached which clearly identifies all equipment that will be utilized.

The storage and measuring facility is located at NW/4 SE/4 -1/4, Sec. 8, T 19 S, R 25 E, on lease No. fee lease Eddy County, New Mexico. BLM will be notified if there is any future change in the facility location.

Details of the proposed method for allocating production to contributing sources is as follows:

Oil from each of the wells will be measured by positive displacement, temperature compensated metering equipment prior to surface commingling. Gas will also be metered separately.

The working interest owners have been notified of the proposal.

The proposed commingling of production is in the interest of conservation and will not result in reduced royalty or improper measurement of production.

The proposed commingling is necessary for continued operation of the above referenced Federal leases.

We understand that the requested approval will not constitute the granting of any right-of-way or construction rights not granted by the lease instrument. And, we will submit within 30 days an application for right-of-way approval to the BLM's Realty Section in your office if we have not already done so.
