SANTA FE NEW MEXICO 87501

August 15, 1975

Texaco Inc.
P. O. Box 728
Hobbs, New Mexico 88240

Attention: Mr. J. A. Schaffer

Gentlemen:

Reference is made to your letter of August 13, 1975, inquiring as to the status of your application to commingle Todd Wolfcamp production from your Roelafs Federal and Harris Federal Leases.

Rule 309-B 3 requires that "...all parties owning an interest in the leases and the purchaser of the commingled production therefrom have consented in writing to the commingling of production from the separate leases" as a condition for approval.

We are still holding your application pending receipt of this consent in writing from the USGS as owner of the royalty interest in the subject leases.

Very truly yours,

DANIEL S. NUTTER
Chief Engineer

Re: Surface Commingle
L. Harris Federal Lease and
H. E. Roelofs Federal (NCT-3) Lease
Todd Wolfcamp Pool
Roosevelt County, New Mexico

Gentlemen:

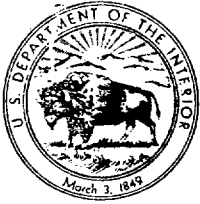

On May 29, 1975, TEXACO Inc. respectfully requested administrative approval of an exception to Rule 309-A to permit commingling of hydrocarbon production from the Todd Wolfcamp Pool from TEXACO's H. E. Roelofs Federal (NCT-3) Lease into the existing tank battery on TEXACO's L. Harris Federal Lease.

As of this date, TEXACO has not received a reply to this request. If additional information is required, please advise.

Yours very truly,

J. A. SCHAFFER
Assistant District Superintendent

June 25, 1975

Texaco Inc.
P. O. Drawer 728
Hobbs, New Mexico 88240

Gentlemen:

Your letter of May 29, 1975, requests approval to commingle Todd Wolfcamp pool production from well No. 1 L. Harris Federal and well No. 2 H. E. Roelofs Federal (NCT-3), located in sections 27 and 22, T. 7 S., R. 35 E. on federal leases Las Cruces 068124 and New Mexico 016663, Roosevelt County, New Mexico.

Commingling of the Todd Wolfcamp production as proposed in your letter is hereby approved subject to like approval by the New Mexico Oil Conservation Commission. Your Lessee's Monthly Report of Sales and Royalty, form 9-361, should show all computations used in allocating production to each of the two leases.

Sincerely yours,

G. R. DANIELS
Acting Area Oil & Gas Supervisor

Re: Surface Commingle
L. Harris Federal Lease and
W. E. Roelofs Federal (NCT-3) Lease
Todd Wolfcamp Pool
Roosevelt County, New Mexico

Gentlemen:

In accordance with New Mexico Oil Conservation Commission Rule 309-B, TEXACO Inc. respectfully requests administrative approval of an exception to Rule 309-A to permit commingling of hydrocarbon production from the Todd Wolfcamp Pool from TEXACO's W. E. Roelofs Federal (NCT-3) Lease into the existing tank battery on TEXACO's L. Harris Federal Lease.

The gravity of the Wolfcamp crude for the L. Harris Federal is 39.4° API with a value of \$5.29 per barrel. The gravity of the Wolfcamp crude for the W. E. Roelofs Federal (NCT-3) is 39.1° API with a value of \$5.29 per barrel. The expected gravity of the commingled liquid hydrocarbon production is 39.2° API with a value of \$5.29 per barrel with no change in the actual commercial value of such commingled production.

The L. Harris Federal Well No. 1 and the W. E. Roelofs Federal (NCT-3) Well No. 2 are incapable of producing top unit allowable as indicated on the attached production tabulation. The working interest is not common between the two leases and therefore production will be metered.

A schematic diagram of the proposed commingling installation, plat of the subject leases and waivers from royalty interest owners are attached.

Mobil Pipeline, as purchaser of crude production, is being furnished a copy of this application.

Your cooperation in this matter will be appreciated.

Yours very truly,

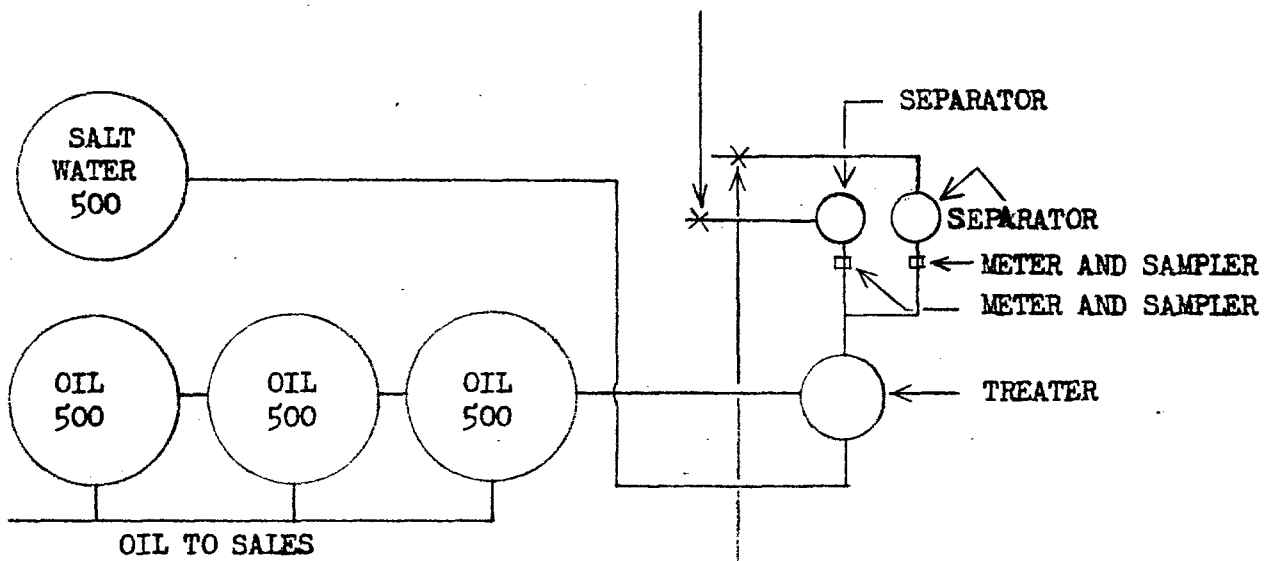

W. V. Gannon
