APPLICATION FOR EXCEPTION TO
NMOCC RULE 309-A TO PERMIT
COMMINGLED PRODUCTION FROM
THE NEW MEXICO "O", STATE "N"
AND STATE "K" LEASES
VACUUM GRAYBURG SAN ANDRES POOL
LEA COUNTY, NEW MEXICO

Gentlemen:

Mobil Oil Corporation respectfully requests permission to commingle Vacuum Grayburg San Andres Pool production from the New Mexico "O" Lease located in the SW/4 SW/4 Section 18, T 17S, R35E; the State "N" Lease located in the SW/4 NE/4, Section 19, T17S, R35E; and the State "K" Lease located in the N/2 SW/4, Section 18, T17S, R35E. The proposed commingling would be in the existing New Mexico "O" tank battery located in the SW/4 SW/4 of Section 18, T17S, R35E.

All of the above leases have common royalty and over-riding royalty ownership as well as common working interest ownership. Since all production is marginal, we request that each well's production be allocated by quarterly well tests as provided for in the NMOCC Rule 309-B. The commingled production will be stored and sold at the New Mexico "O" Lease tank battery located in the SW/4 SW/4 of Section 18, T17S, R35E.

The following attachments are submitted in support of this application:

- A. Exhibit #1 - Plat showing the leases and wells of this request.
- B. Exhibit #2 - Schematic of the proposed modifications at the New Mexico "O" Lease tank battery.
- C. Exhibit #3 - Letter of Consent from the purchaser of the crude.
- D. Exhibit #4 - Commissioner of Public Lands approval letter for this application.

Yours very truly,

for W.B. Simmons
