

**OIL CONSERVATION COMMISSION**

P. O. BOX 2088

SANTA FE, NEW MEXICO 87501

August 13, 1971

Jennings, Christy & Copple  
P. O. Box 1180  
Roswell, New Mexico 86201

Attention: Mr. James T. Jennings

Administrative Order CTB-228

Gentlemen:

Reference is made to your application for and exception to Rule 309-A of the Commission Rules and Regulations to permit the commingling of Grayburg-Jackson Pool Production by Shenandoah Oil Corporation on its Federal Lease No. LC 029020(a) covering the SE/4 SW/4 of Section 15, Federal Lease No. NM 0467930 covering the SW/4 SE/4 of Section 15 and the N/2 N/2, E/2 NW/4, and NW/4 SW/4 of Section 22, and Federal Lease No. LC 029020(c) covering the SE/4 SE/4 of Section 15, all in Township 17 South, Range 30 East, NMPM, Eddy County, New Mexico. It is our understanding that ownership of these three leases is identical throughout, and that you therefore propose to allocate the production on the basis of periodic well tests.

Under the authority granted me pursuant to Rule 309-B, Shenandoah is hereby authorized to commingle the above-described production as proposed, subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities."

It is the responsibility of the producer to notify the purchaser of this commingling authority.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director

ALP/DSH/dr

OIL CONSERVATION COMMISSION

REPORT

FOR THE YEAR 1917

WASHINGTON

UNITED STATES GOVERNMENT PRINTING OFFICE

1918

100-100000-1

100-100000-1

100-100000-1

100-100000-1

The Commission was organized on July 1, 1917, under the provisions of the Act of June 16, 1917, (40 Stat. 1000). Its purpose is to study the oil resources of the United States, to determine the extent of the reserves, and to recommend measures for their conservation. The Commission has since its organization held numerous public hearings, and has received many suggestions from interested parties. It has also conducted extensive research into the oil industry, and has published several reports on its findings. The present report is the first of a series of reports which the Commission expects to publish in the near future. It contains a detailed account of the Commission's work during the year 1917, and of its findings regarding the oil resources of the United States. It also contains recommendations for the conservation of these resources, and for the development of the oil industry in a manner which will be beneficial to the Nation.
