Chevron U.S.A. Inc.  
P. O. Box 670  
Hobbs, New Mexico 88240

Attention: R. C. Anderson

Lease Name: Arnott Ramsay (NCT-F)

Description: N/2 Sec. 36, T-25-S, R-37-E, NMPM  
Lea County, New Mexico

The above-named company is hereby authorized to commingle Justis Fusselman, Justis Blinebry, Justis Tubb-Drinkard, and Langle Mattix pool production in a common tank battery and to determine the production from each pool by well tests. If this method is to be authorized, all commingled production must be of marginal nature; further the operator shall notify the Santa Fe Office of the Division in the event any well in the commingled battery becomes capable of top allowable production, at which time the Division will amend this order or take such other action as may be appropriate.

NOTE: This installation shall be installed and operated in accordance with the applicable provisions of Rule 303 of the Division Rules and Regulations and the Division "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.

REMARKS: Administrative Order PC-9, dated April 1, 1966, authorized the commingling of Justis Fusselman and Justis Tubb-Drinkard production after separately metering said production. This amendment authorizes the addition of the Justis Blinebry and Langle Mattix and also authorizes the allocation of production from all zones to be done by well tests.

DONE at Santa Fe, New Mexico, on this 24th day of  
October, 1985.
