**AMENDMENT**  
**Administrative Order PC-110**

Gentlemen:

Reference is made to your letter dated June 3, 1969, wherein you request the amendment of Administrative Order PC-110 which, as amended, presently authorizes the commingling of Drinkard, Blinebry, and Paddock production on your M. T. Mattern (NCT-A) Lease allocating the production by means of periodic well tests.

It is our understanding that the Blinebry zone on this lease is no longer producing and that you therefore wish to substitute Penrose Skelly production in the commingling installation.

Administrative Order PC-110 is hereby amended to authorize the commingling of Penrose Skelly, Paddock, and Drinkard production on the subject lease, allocating the production on the basis of periodic well tests, provided however, that you shall notify the Commission at such time as any well producing into this installation is capable of top allowable production.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
