Reference is made to your application dated October 18, 1963, and to your subsequent explanatory letter of November 18, 1963, regarding your request for an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of Maljamar-Devonian, Maljamar-Abo, and Baish-Wolfcamp oil produced on your Baish "B" Lease with Maljamar (Grayburg-San Andres) oil produced on that portion of the Baish "B" Lease lying outside the boundary of the MCA Participating Area after separately metering the production from each pool. All of the acreage covered by the subject application is within Sections 21 and 22 of Township 17 South, Range 32 East, Lea County, New Mexico.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters, and provided further, that you shall notify the Hobbs District Office of the Commission at such time as this installation is complete in order that a field inspection may be made of the installation prior to putting it in use.
