Mr. A. L. Porter, Jr.  
Secretary-Director  
New Mexico Oil Conservation Commission  
Post Office Box 2088  
Santa Fe, New Mexico

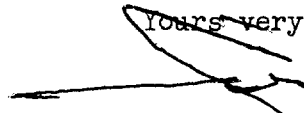

Dear Sir:

Pan American Petroleum Corporation hereby submits application for an amendment to Administrative Order PC-282 for the commingling of oil production without prior metering of the Blinbry (Oil), Drinkard (Oil), Tubb (Oil), Wantz Abo (Oil), and Tubb (Condensate) on the State "C" Tract 13 Lease, Lea County, New Mexico.

In support of our request for exception to Rule 303(a), to permit commingling of commonly owned production from two or more common sources of supply, without notice and hearing, the following is submitted:

1. Plats of the State "C" Tract 13 Lease showing thereon all wells and the formation in which they are completed.
2. Schematic diagram of the proposed commingling facility, located in the NW/4 of the NW/4, Section 36, T-21-S, R-37-E, Lea County, New Mexico.
3. Tabulation of production from each pool for a 60-day period showing that the average daily production has been below top allowable for the subject pools.
4. The purchaser of the commingled production will make settlement on the basis of representative gravities from each individual zone and the volume from each zone as allocated by well tests. Therefore, there will be no change in the value of the liquid hydrocarbons as a result of commingling.

Yours very truly,

V. E. Staley  
Area Superintendent

PC 282*

**ILLEGIBLE**

Dear Sir:

Reference is made to Administrative Order PC-282, dated November 19, 1965, authorizing the commingling of Drinkard and Blinebry oil and Tubb condensate on our State "C" Tract 13 Lease comprising the NW/4 and the W/2 NE/4 of Section 36, T-21-S, R-37-E, Lea County, New Mexico.

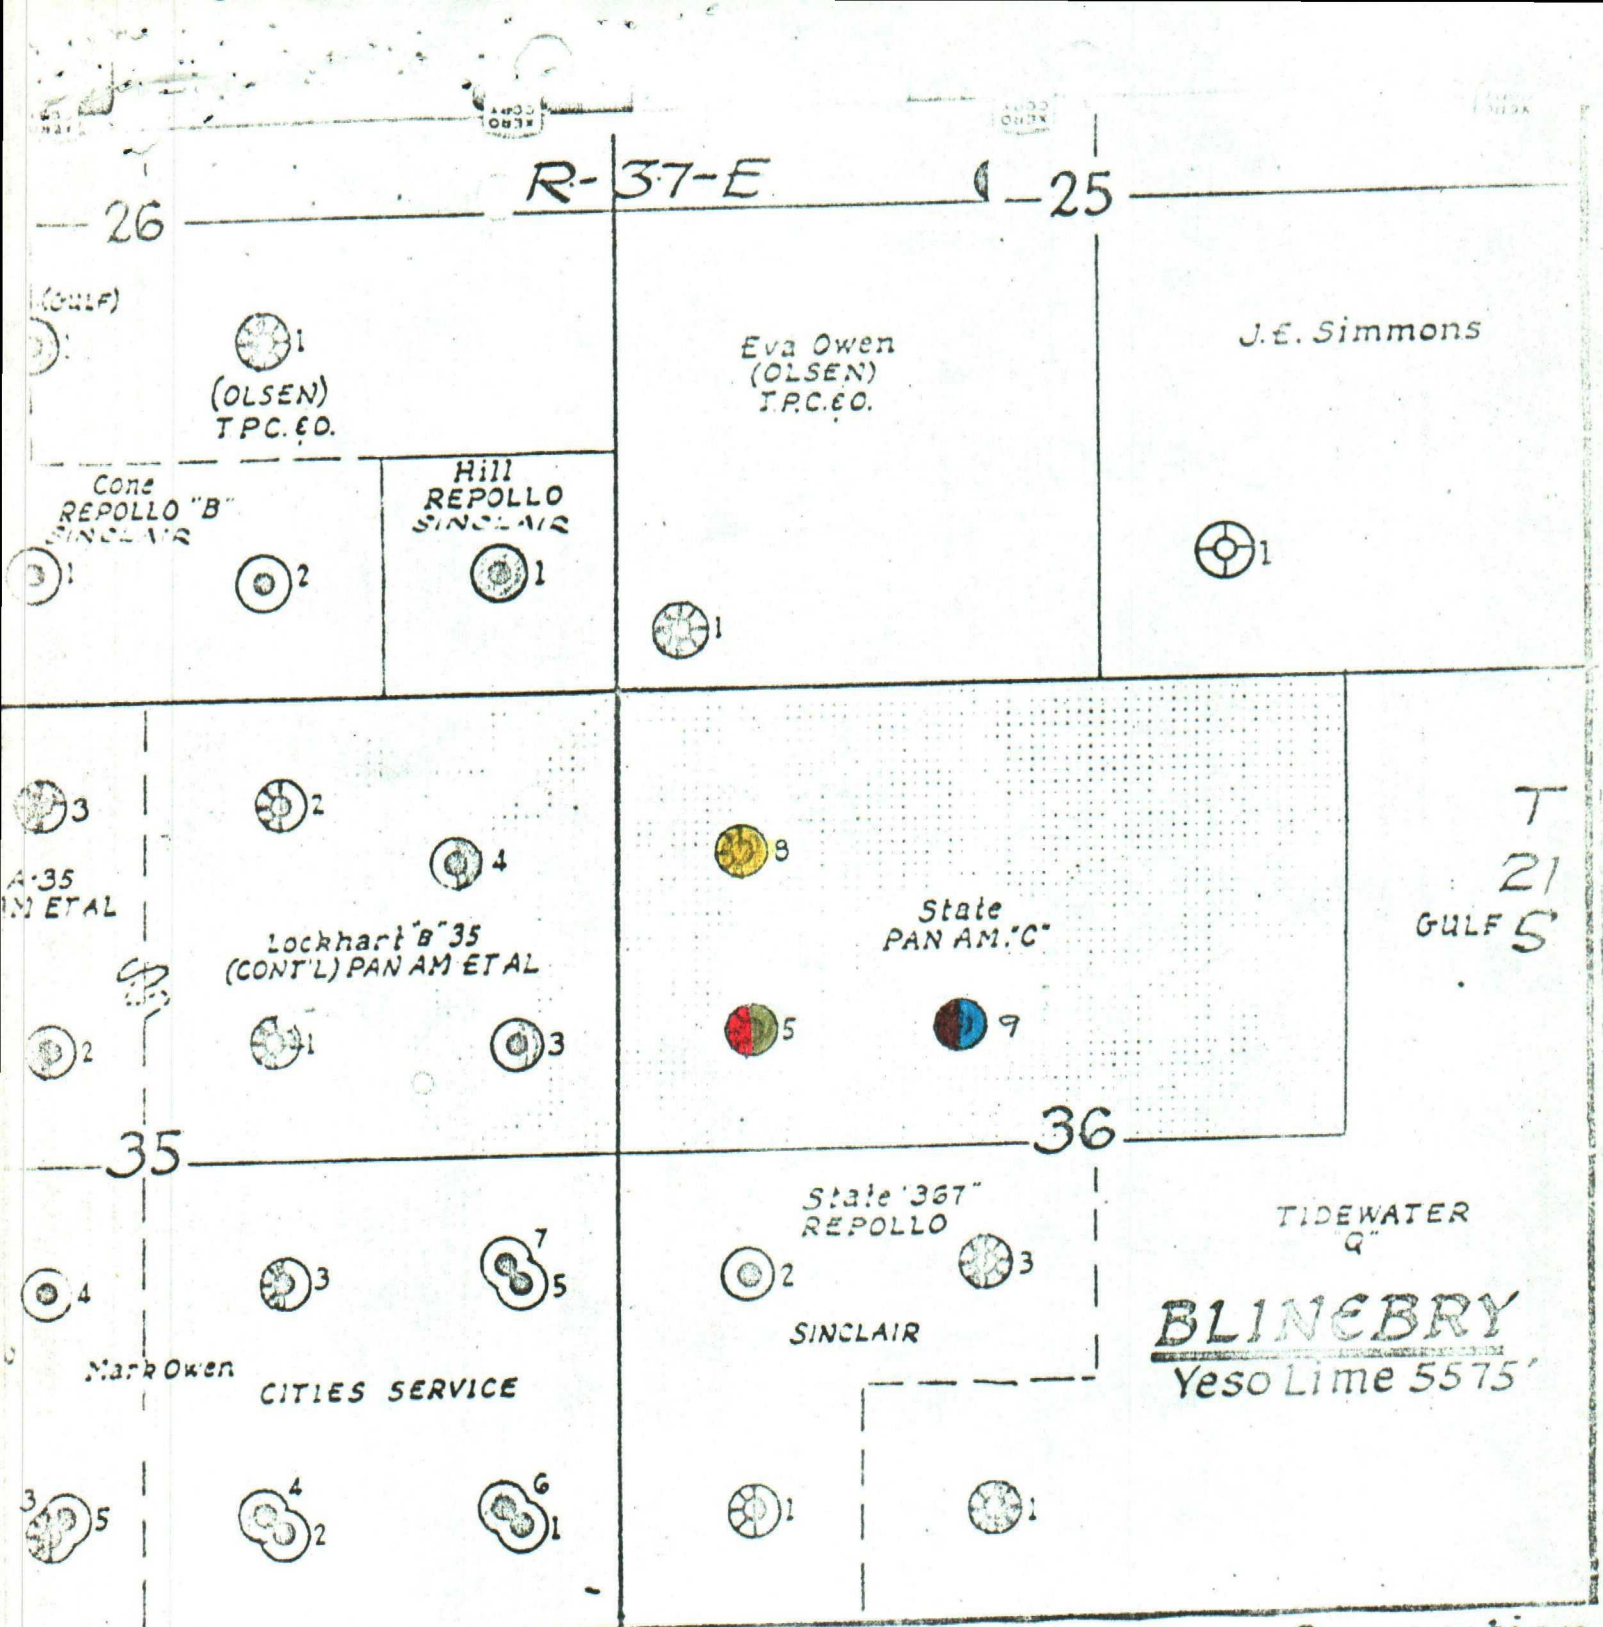

At the time the original application was submitted, a Tubb gas completion was anticipated on our State "C" Tract 13, Well No. 9. Subsequently, however, the well was completed as a Tubb oil well. In view of this, it is requested that Administrative Order PC-282 be amended to provide for this Tubb oil commingling.

Yours very truly,

V. E. Staley

**Amendment**  
**Administrative Order PC-282**

Gentlemen:

Reference is made to your letter dated December 7, 1965, wherein you advise that your State "C" Tract 13 Well No. 9 was completed as a Tubb oil well rather than a Tubb gas well as was anticipated at the time Administrative Order PC-282 was entered authorizing the commingling of Drinkard and Blinbry oil and Tubb condensate on said lease.

Administrative Order PC-282 is hereby amended to permit the commingling of Drinkard, Blinbry, and Tubb oil on said lease after separately metering the production from each pool.

Very truly yours,

**A. L. PORTER, Jr.**
