AMENDMENT  
COMMINGLING ORDER PLC-11

Company Skelly Oil Company  
Address P. O. Box 1351  
City, State, Zip Midland, Texas 79701

Attention: Mr. Leland Franz

The above-named company is hereby authorized to commingle  
Dollarhide-Ellenburger, Fusselman, and Devonian  
pool production from the following leases:

Lease Name: Mexico "J"  
Description: S/2 Sec. 32, T-24-S, R-38-E, Lea County

Lease Name: Mexico "L"  
Description: N/2 Sec. 5, T-25-S, R-38-E, Lea County

Lease Name:  
Description:

Production shall be allocated to each lease by

X separately metering the production from each pool prior to  
commingling

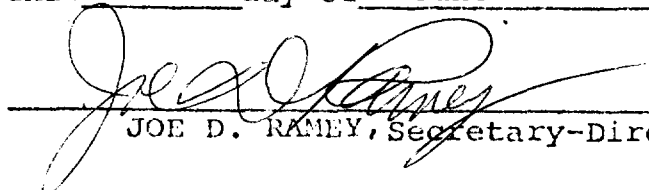

       separately metering the production from the  
and determining the  
production by the subtraction method

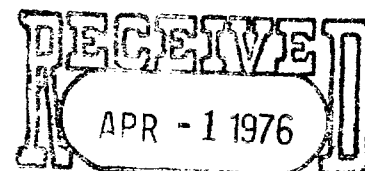

       well tests (if this method or the subtraction method above is  
to be authorized, all commingled production must be of identical  
ownership: working interest, royalty interest, and overriding  
royalty interest)

Note: This installation shall be installed and operated in accordance  
with the applicable provisions of Rule 309-B of the Commission  
Rules and Regulations and the Commission "Manual for the Installation and  
Operation of Commingling Facilities." It is the responsibility of the  
producer to notify the transporter of this commingling authority.

REMARKS: Order PLC-11, prior to this amendment, did not include Devonian  
production, but did include Drinkard production which is hereby  
deleted.

Dear Mr. Ramey:

We are attaching, in quadruplicate, application for administrative approval for an exception to Rule 303-A by amendment of Administrative Order PLC-11 dated August 4, 1964, to permit commingling of the Dollarhide Devonian production with existing Dollarhide Fusselman and Ellenburger production on Skelly's Mexico "J" and "L" leases. In connection with this application we are attaching Exhibit No. 1, a plat of Mexico "J" and "L" leases, showing the wells completed in the Devonian, Fusselman and Ellenburger formations, flow lines, and location of proposed commingling site, along with Exhibit No. 2, a schematic drawing of the commingling system. There will be no changes in the specifications of the lease automatic custody transfer unit now in operation on the Mexico "L" lease and serving the above two leases.

By copy of this letter we are furnishing the above named information to the Commissioner of Public Lands for New Mexico and Texas-New Mexico Pipeline Company, requesting that they advise you directly of their approval.

Yours very truly,

  
Leland Franz

Re: APPLICATION OF SKELLY OIL COMPANY  
FOR ADMINISTRATIVE APPROVAL FOR AN  
EXCEPTION TO RULE 303-A SO AS TO  
PERMIT COMMINGLING OF DOLLARHIDE  
DEVONIAN, FUSSELMAN AND ELLENBURGER  
PRODUCTION ON COMPANY'S MEXICO "J"  
AND "L" LEASES, LEA COUNTY, NEW MEXICO,  
INTO ONE COMMON STORAGE FACILITY.

New Mexico Oil Conservation Commission (4)  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Gentlemen:

Skelly Oil Company respectfully makes application for administrative approval to permanently commingle Dollarhide Devonian production from its Mexico "J" Well No. 5 with existing Dollarhide Fusselman and Dollarhide Ellenburger production from its Mexico "J" Wells No. 1, 2, 4, 17, and 23 and its Mexico "L" Wells No. 1, 3, 4, 11, 23, and 24. Production from the Dollarhide Fusselman and Ellenburger pools is commingled and sold through Automatic Custody Transfer Equipment (LACT) authorized by Administrative Order PLC-11 dated August 4, 1964.

In support of this application Skelly states the following:

1. That the applicant is the operator of its Mexico "J" Lease, S/2 Section 32-24S-38E and its Mexico "L" Lease N/2 Section 5-25S-38E, Lea County, New Mexico.
2. That the attached Exhibit No. 1 is a plat of the Mexico "J" and "L" Leases, the wells in the Devonian, Fusselman and Ellenburger pools, flow lines and location of the proposed commingling site.
3. That the working interests and royalty ownerships under the above described leases are the same. ] ✓
4. That the applicant proposes to commingle the production from all wells on both leases, producing from the Dollarhide Devonian, Fusselman and Ellenburger pools in the one existing facility as shown on Exhibit No. 2.

March 29, 1976

Page 2

5. That the producing properties of the leases are as follows:

<u>Zone</u>	<u>Number of Wells</u>	<u>Daily Production</u> <u>BOPD</u>	<u>BWPD</u>	<u>MCFGPD</u>	<u>Oil Gravity</u> <u>@ 60°</u>	<u>Price Oil</u> <u>\$/bbl.</u>
Fusselman	9	162	1236	18	41.0	5.31
Ellenburger	2	60	258	7	41.0	5.31
Devonian	<u>1</u>	<u>110</u>	<u>2</u>	<u>201</u>	44.3	12.03*
	<del>11</del>	332	1496	226		

<sup>12</sup>  
\*Should receive Upper Tier oil price for new oil.

Commingled gravity is estimated to be 42.1 degrees worth \$7.54/bbl. The upgrading of the gravities will not cause a reduction in the sum of the values of the production from each common source of supply.

6. That the production from each zone will be accurately metered prior to being commingled.
7. That this commingling system will be operated in accordance with NMOCC's "Manual For Installation and Operation of Commingling Facilities", and there will be no change in the existing facility.
8. That only one of the wells to be commingled is at top allowable - Mexico "J" Well No. 5 (Devonian), and that none of the other wells are top allowable wells or restricted by GOR.

Applicant further requests that the production be allocated in accordance with individual well tests to be taken every six months.

Offset operators are being notified of this request by copy of this application.

Respectfully submitted,

SKELLY OIL COMPANY

  
Leland Franz
