Dear Mr. Stogner:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102); and
2. Ownership plat.

The Carson Federal G #1 well was spud on 9-8-94 and completed on 10-25-94 as a Choza Mesa Pictured Cliffs well. The well is currently shut-in and not producing for economical reasons. We would like to abandon the Pictured Cliffs formation and recomplete in the Nacimiento formation. Under statewide rules, production from the Nacimiento formation will be from a 160-acre gas spacing unit being the NE/4 of Section 25. Current statewide rules state that the subject well be located no closer than 660 feet to the quarter section line. **We plan to come up the hole and perforate the Nacimiento formation from 3,225'-3,232' MD from the surface. At a MD of 3,225', the bottom hole location would be 1,662' FNL & 2,253' FEL which would not conform to current footage requirements.** The current wellbore is in an acceptable condition for the recompletion attempt and by moving up the hole in this well, XTO would be able to minimize the environmental impact and capture these remaining reserves. Furthermore, a new well would not be economically feasible for the Nacimiento formation.

The offset 160 acre tract due west (NW/4 of Sec. 25), towards which the requested unorthodox location encroaches, is owned 100% by XTO; therefore, there are no offset operators or leasehold owners to notify. None of the offsetting 160-acre spacing units have been developed in the Nacimiento formation.

XTO is requesting administrative approval for the unorthodox location based on the information stated above. If additional information or clarification is needed, please contact me at (817) 885-2661.

Very truly yours,

Re: Administrative application for an exception to Division Rule 104.C (3).

Dear Mr. Welch:

This letter acknowledges the receipt of your administrative application dated August 13, 2001 to recomplete XTO Energy, Inc.'s existing Carson Federal "G" Well No. 1 (API No. 30-039-25444) to the wildcat Nocimieto formation at an unorthodox subsurface gas well location 1662 feet from the North line and 2253 feet from the East line (Unit G) of Section 25, Township 28 North, Range 4 West, NMPM, Rio Arriba County, New Mexico, within a standard 160-acre gas spacing and proration unit comprising the NE/4 of Section 25.

The Division received this application on August 14, 2001, accepts it as an administrative application, and assigned it NMOCD application reference No. *pKRV0-122730120*. Please refer to this number in future correspondence with the Division.

Our preliminary review indicates that the information provided in the application is not sufficient to process an administrative order. The following information is necessary:

A completed and signed "**Administrative Application Checklist**", which is now mandatory for such filings.

Since the submitted information is insufficient to review, the application was ruled as incomplete on September 17, 2001. Please submit the above stated information by Monday, September 24, 2001.

The Division cannot proceed with your application until the required information is submitted. Upon receipt, the Division will continue to process your application. The additional information can be faxed to (505) 476-3471, or mailed to the Division in Santa Fe. If the necessary information is not submitted, your application will be returned to you.

Should you have any questions concerning this matter, please contact me in Santa Fe at (505) 476-3465. Thank you.

Sincerely,

Michael E. Stogner
