Ale 11-28

Mr. A. L. Porter, Jr. Secretary New Mexico Oil Conservation Commission P.O. Box 871 Santa Fe, New Mexico

Dear Sir:

J. W. Feery hereby petitions the New Maxico Gil Conservation Commission for administrative approval to dual complete his Hardy No. 3 Well as a gas well in the Eumont Gas Pool and as an cil well in the Penrose-Skelly Oil Pool, and to establish an eighty (80) acre non-standard gas proration unit as provided in Order B-520, dated August 1, 1954, and in support thereof states as follows:

1. The J. W. Peery Hardy lesse contains 20 acres. This land is described as follows:

S/2 SE/4 of Section 19, T-21-S, R-37-E, NMPM, Lee County, New Mexico

This acreage is located in the Europt Gas Pool and the Penrose-Skelly Oil Pool.

- 2. Well No. 3 is located 1650 feet West of the East line and 660 feet North of the South line of Section 19, T-21-S, R-37-E. Application to drill this well is suclosed herewith.
- 3. Notice of Intention to dual complete this well in the Eumont Gas Pool and Penrose-Skelly Gil Pool and te assign 80 acres to the well for gas allowable purposes were sent by registered mail to The Texas Company, Fan American, Amerada Petroleum Co., Galf Gil Corporation and Magnolia Petroleum Company. Naturn receipts are attached.
- 4. Well No. 3 will be drilled to a total depth of approximately 3800 feet with 7" casing set at 3700 feet and cemented. Casing will be perforated 3550 to 3595 opposite the Queen Sand for completion as a gas well. Penroso-Skelly oil production will be from open hole 3700 to 3800 feet. The above perforations are within the vertical limits of the Eumont Gas Pool and the open hole is within the vertical limits of the Eurose-Skelly Oil Pool.

5. By appropriate conventional dual completion (equipment, the gas from the Eumont Gas Pool can be produced through the casing-tubing annulus, and the oil from the Penrose-Skelly Oil Pool through the tubing. The separately produced zones will be in conformance with Oil Conservation Commission policies and specifications pertaining to dual completions in the State of New Mexice.

- 5. In order to produce this lease without incurring the cost of additional drilling and to protect all correlative rights, a non-standard gas proration unit of 80 acres is requested for the J. W. Peery No. 3 well in the Eumont Gas Pool. The entire acreage consists of contiguous quarter quarter sections completely situated in Section 19, T-21-S, R-37-E, and the length does not exceed 5280 feet.
- 7. Gas wells are producing from the Queen Sand on adjacent sections, and it is reasonable to assume that the entire 80 acres is productive of gas and that well No. 3 is so located as to recover the gas reserves underlying the 80 acres.
- 8. All surrounding leasehold operators of the proposed unit are being furnished a copy of this application by Registered Mail.
- 9. Properly completed Form 9-331a, and 128 in quintuplet are attached, as is diagramatic sketch of proposed dual. Copies are also being furnished the operators receiving a copy of this petition.

J. W. Peery request that in the interest of conservation and to protect the correlative rights, the Commission grant administrative approval of this petition.

Very truly yours,

J. W. PERRY

Ź.

J. W. PEERY

STATE OF TEXAS

COUNTY OF ECTOR

BEFORE ME, the undersigned authority, on this day personally appeared J. W. PEERY, known to me to be the person whose name is subscribed to the attached instrument, who being by me duly sworn on eath states that he is duly authorized to make the attached report and that he has knowledge of the facts stated therein and that said report is true and correct.

Operator

INSTRUCTIONS FOR COMPLETION:

- 1. Operator shall furnish and certify to the information called for in Section A.
- 2. Operator shall outline the dedicated acreage for both oil and gas wells on the plat in Section B.
- 3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
- 4. All distances shown on the plat must be from the outer boundaries of Section.
- 5. If additional space is needed for listing owners and their respective interests as required in question 3, Section A, please use space below

ģ
