Dear Sir:

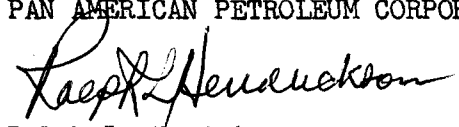

We have received your letter dated May 12, 1958, returning our application for administrative approval of a non-standard proration unit, for P. J. Langlie "A" Well No. 2, due to lack of records indicating a change in ownership.

This matter has been discussed with Mr. R. F. Montgomery and we have furnished him Form C-103 and photostat copies of a letter and Form 9-331a which were filed with the U. S. Geological Survey. The forms and letter establish removal of this well from the Langlie Unit Re-Pressuring Project operated by Anderson-Prichard Oil Corporation. Mr. Montgomery said he would forward approved copies of Form C-103, copies of the federal form and our application for a non-standard proration unit to you.

Please advise if you need additional forms or information to clarify this matter.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION
