Re: Continental Oil Company application for a 40-acre non-standard gas proration unit for its Stevens A-34 No. 1 in Section 34, T23S, R36E, NMPM, Jalmat Gas Pool, Lea County, New Mexico.

Gentlemen:

Continental Oil Company respectfully requests administrative approval under the provisions of Rule 5 (b) of the Special Rules and Regulations for the Jalmat Gas Pool of Order No. R-520 for the reduction of the presently approved 160 acre unit to a 40-acre non-standard gas proration unit consisting of the SW/4 NW/4 of Section 34, Township 23 South, Range 36 East, for its Stevens A-34 No. 1 well located 1980 feet from the North line and 660 feet from the West line of Section 34, Township 23 South, Range 36 East, Lea County, New Mexico in the Jalmat Gas Pool.

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5 (b) in all respects as follows:

1. Said proposed non-standard gas proration unit consists of contiguous quarter-quarter sections.
2. Said proposed non standard gas proration unit lies wholly within a single governmental section.
3. The entire proposed non-standard gas proration unit may be reasonably presumed to be productive of gas.
4. The length or width of said unit does not exceed 5,280 feet.
5. Copies of this application have been furnished this date by registered mail to all offset operators and all operators within 1,500 feet of said well, as required by the provisions of said Rule 5 (b).

A plat is attached hereto showing to the best of our knowledge and belief the proposed unit, the location of the No. 1 well and other wells on the lease, offset wells and ownership thereof.

*Due to waiting (on waiting) (on waiting)*  
*10/11/58*

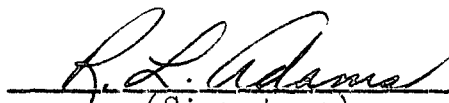

The granting of this application is in the interest of preventing waste and the protection of correlative rights.

In view of the facts set out herein it is respectfully requested that the Commission enter an order approving the non-standard gas proration unit for Continental Oil Company's Stevens A-34 No. 1 well as described above.

Gentlemen:

Continental Oil Company's notification to El Paso Natural Gas Company as offset operator of their above mentioned application was delayed as explained in Mr. R. L. Adams' letter of November 19, 1958 to your attention.

In order that the delay in our receipt of Continental's application may not in turn unduly delay the administrative approval sought, El Paso herewith advises the Commission that they have no opposition to the granting of the non-standard proration unit as proposed in Continental's application of November 7, 1958.

Yours very truly,

Gentlemen:

The subject application was forwarded to your office on November 7, 1958. Our records indicated Shell Oil Company to be the operator in the NE/4 of Section 33-23-36 and as such, they were forwarded copies of our application in accordance with the provisions of Rule 5 (b) of the Special Rules and Regulations for the Jalmat Gas Pool of Order R-520. Subsequently, we have been advised by the Shell Oil Company that they own only the gas rights in the NE/4 of Section 33-23-36 and that the gas rights in this quarter section are actually held by the El Paso Natural Gas Company.

We are therefore this date forwarding to the El Paso Natural Gas Company a copy of the subject application via registered mail. We trust this action will enable you to approve this application without undue delay.

Very truly yours,

RLA-CP
