Attention: Mr. A. B. Slaybaugh, District Manager

Gentlemen:

We have your application dated December 18, 1963, wherein you request approval of a 40-acre non-standard gas proration unit in the Blinebry Gas Pool for your State 10 Well No. 1 located in Unit D of Section 10, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico. Our records reflect that Administrative Order NSP-610, dated August 8, 1962, approved the proposed non-standard unit for this well. I am enclosing herewith a copy of this order for your files.

As our Proration Department does not have a record of Blinebry gas production from this well, they have asked me to request that you forward Blinebry gas production figures along with the name of the purchaser if the well has been producing Blinebry gas.

Very truly yours,

J. M. DURRETT, Jr.
Attorney

Gentlemen:

Re: Application for non-
standard unit in
State 10 No. 1

We forward herewith application in triplicate for approval of a 40-acre non-standard gas proration unit in the Blinbry Gas Pool for our State 10 Well No. 1, located in Unit D, Section 10, Township 21 South, Range 37 East, Lea County, New Mexico.

One copy of this application is being furnished by Registered mail to the offset operators listed on the application.

Your further handling and approval of this application will be sincerely appreciated.

Yours very truly,

AB Slaybaugh

Re: Continental Oil Company
application for a 40-acre
non-standard gas proration
unit for its State 10 No. 1
in Section 10, T-21S, R-37E,
NMPM, Blinebry Pool, Lea
County, New Mexico

Gentlemen:

Continental Oil Company respectfully requests administrative approval under the provisions of Rule 5-C of the Special Rules and Regulations for the Blinebry Gas Pool of Order R-1670 for the formation of a 40-acre non-standard gas proration unit consisting of the NW/4 NW/4, Section 10, Township 21 South, Range 37 East, for its State 10 Well No. 1 located 990 feet from the North and West lines of Section 10, Township 21 South, Range 37 East, Lea County, New Mexico, in the Blinebry Gas Pool.

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5-C in all respects as follows:

1. Said proposed non-standard gas proration unit consists of contiguous quarter-quarter sections.
2. Said proposed non-standard gas proration unit lies wholly within a single governmental quarter section.
3. The entire proposed non-standard gas proration unit may be reasonably presumed to be productive of gas.
4. The length or width of said unit does not exceed 2,640 feet.
5. Copies of this application have been furnished this date by registered mail to all operators in the same quarter section and within 1500 feet of said well as required by the provisions of said Rule 5-C.

A plat is attached hereto showing to the best of our knowledge and belief the proposed unit, the location of the No. 1 well and other wells on the lease, offset wells and ownership thereof.

The granting of this application is in the interest of preventing waste and the protection of correlative rights.

In view of the facts set out herein it is respectfully requested that the Commission enter orders approving the non-standard gas proration unit for Continental Oil Company's State 10 No. 1 well as described above.

Gentlemen:

Reference is made to your letter of December 27, 1963 concerning Blinebry gas production from our State 10 Well No. 1, located in Unit D of Section 10, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico. This well has been shut-in since March 29, 1962. It does not have a pipeline connection.

Yours very truly,

RG-MAA
