*Administrative Order NSP-688-A(SD)*

Dear Ms. LeVan:

Reference is made to your application dated January 18, 1996 for an 80-acre non-standard gas spacing and proration unit ("GPU") consisting of the following acreage in the Blinebry Oil and Gas Pool:

LEA COUNTY, NEW MEXICO  
TOWNSHIP 22 SOUTH, RANGE 37 EAST, NMPM  
Section 1: W/2 SE/4.

It is our understanding that this unit is to be simultaneously dedicated to your existing Alice Paddock Well No. 1 (API No. 30-025-09938), located at a standard gas well location 660 feet from the South line and 1980 feet from the East line (Unit O) of said Section 1 and your existing Alice Paddock Well No. 2 (API No. 30-025-09939), located at a standard gas well location 1980 feet from the South and East lines (Unit J) of said Section 1.

By authority granted me under the provisions of Rule 2(d) of the "*Special Rules and Regulations for the Blinebry Oil and Gas Pool*" as promulgated by Division Order No. R-8170, as amended, the above-described 80-acre non-standard gas spacing and proration unit is hereby approved. Also, you are hereby permitted to produce the allowable assigned the subject GPU, in accordance with Rule 5 of said pool rules based upon a unit size of 80 acres.

There appear to be three administrative non-standard gas spacing and proration orders previously issued for the Alice Paddock Well No. 1:

- Division Administrative Order NSP-688, dated August 19, 1964, which authorized the 40 acres comprising the SW/4 SE/4 of

said Section 1 to be dedicated to said well;

- Division Administrative Order NSP-692, dated September 30, 1964, authorized a 120-acre non-standard GPU for the Alice Paddock Well No. 1 consisting of the SW/4 SE/4 and E/2 SE/4 of said Section 1; and,
- on January 27, 1986 said Administrative Order NSP-692 was amended to form a non-standard 80-acre GPU for the Alice Paddock Well No. 1 comprising the S/2 SE/4 of said Section 1.

The last gas proration schedule, issued by the New Mexico Oil Conservation Commission in Case 11350 by Order No. R-10435, has for the Alice Paddock Well No. 1 an acreage factor of 0.25, which indicates that the 40 acres comprising the SW/4 SE/4 of said Section 1 is currently dedicated to said well. While your application made no reference to any of the previous orders or to the current 40-acre GPU for the No. 1 well, it can only be assumed that Chevron has been producing this well under the authority of Order NSP-688.

At this time the three of the aforementioned Division Administrative Orders (NSP-688, NSP-692, and "AMENDED NSP-692) are hereby placed in abeyance until further notice by the Division.

Sincerely,

William J. LeMay  
Director
