P. O. Box 2088

Dear Sir:

We request administrative unorthodox location approval for the drilling of our Springs Unit No. 5, located 660' FNL and 1650' FWL of Section 35, T-20S, R-26E, Eddy County, New Mexico. This is to be a development well in the Springs Upper Penn Gas Pool.

The unorthodox location is necessitated by a "short" section as noted on the attached engineering plat. Most of the shortening, 654' of 697', is in the west half. To stay 330' from the nearest quarter-quarter line required a 1650' distance from the west line. The north half of Section 35 will be dedicated to the well, and no offset operators are within 1500' of the proposed location.

Yours very truly,

C. D. BORLAND
Area Production Manager
