Re: Sun Oil Company, Application
for a 120 acre Non Standard
Proration Unit in the Blinebry
Gas Pool for State Land "15"
Well #3

Gentlemen:

Sun Oil Company respectfully requests Administrative Approval of a 120 acre Non Standard Proration Unit consisting of the South 1/2 of the South West 1/4 and the South West 1/4 of the South East 1/4 of Section 16, T-21-S, R-37-E, Lea County, New Mexico in the Blinebry gas pool.

Production for the proposed unit would come from Sun's State Land "15", Well #3, located 660' FSL and 1980' FEL of above described section as shown on the attached area map.

Upon approval of this application, Sun's State Land "15", Well #2, the immediate west offset to the subject well will be shut-in as a Blinebry oil producer.

State Land "15" Well #3 has recently been re-classified to the Blinebry gas pool from the Blinebry oil pool due to a G.O.R. in excess of that allowed for an oil well.

Copies of this request have been forwarded by certified mail to Offset Operators as shown on the attached list.

Yours very truly,

SUN OIL COMPANY

Jack Andrews
District Engineer
