Attention: Mr. Joe D. Ramey

Gentlemen:

Kern Co., respectfully requests Administrative approval of the unorthodox proration unit to drill and produce the Goins Well No. 1 located in Unit J, 1980' from the South Line and 1980' from the East Line of Section 7, T-21-S, R-37-E, Lea County, New Mexico. This well will be drilled in the Eumont Yates 7 Rivers Queen Gas Field.

This approval is in the interest of conservation, will protect correlative rights, prevent economic waste, and will allow for more complete recovery of the gas reserves.

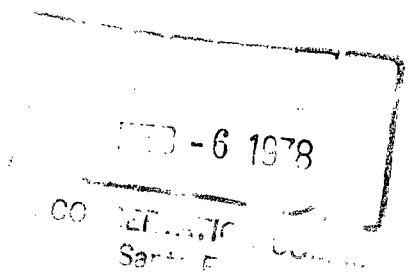

Attached is a map showing offset operators, well location and acreage dedication plat, and a list of offset operators. Offset operators have been notified by copy of this letter.

Yours very truly,  
Kern Co.

Re: Application for non-standard  
gas proration unit, Goins  
Well No. 1, Eumont Gas Pool,  
Lea County, New Mexico

Attention: Nadeen C. Strickland

Dear Ms. Strickland:

While the subject application did not include a written description of the non-standard unit sought, we assume from the plat that the same consists of the S/2 NE/4 and N/2 SE/4 of Section 7. Further, there was no indication that the offset operators had been notified of the application by registered or certified mail as required by the appropriate Commission rule.

Upon clarification of these items, we may proceed with processing the application.
