Dear Mr. Stamets:

Union Texas Petroleum (UTP) requests Administrative Approval for a Non-Standard Proration Unit covering the Dakota formation.

This well is dually completed in the Otero Chacra and Basin Dakota pool. As a direct result of Order R-8106, accepted for record December 26, 1985, the SW/4 of Section 34-T25N-R5W was removed from the Basin Dakota Pool and placed back into the West Lindrith Gallup Dakota Pool.

All offset operators have been notified of our proposals. If I may be of further assistance, please advise.

Very truly yours,

Robert C. Frank  
Permit Coordinator
