RE: Springs AEU Federal Com #1  
1960' FNL and 1550' FEL of  
Section 3-T21S-R25E  
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation requests administrative approval for the non-standard location as provided for under NMOC Rule 104F.

The reason for requesting this non-standard location is topographic. Our preferred location was 2100' FNL and 1400' FEL of Section 3-T21S-R25E, but due to the proximity of the Brantley Dam Project on our lease, we chose the non-standard location of 1882' FNL and 1650' FEL as this was the best location to drill the captioned well as it is flat in this area. The Bureau of Reclamation would not accept this location, as we were still too close to the Brantley Dam Project. We chose the non-standard location of 1960' FNL and 1550' FEL of Section 3-T21S-R25E with the approval of the Bureau of Reclamation.

Enclosed please find a copy of the lease map showing the offsetting lease operators, a topographic map of the area and a survey plat and a copy of my cover letter dated December 1, 1987, where I had applied for the first non-standard location approval. Offsetting lease operators have been notified of our intentions by certified mail, via a xerox copy of this letter.

Formations that we expect to drill through are: Delaware Sandstone, Bone Springs Limestone, 3rd Bone Springs Sandstone, Wolfcamp, Canyon Dolomite, Strawn, Atoka, Morrow and Chester Shale. Our expected total depth is 10500'.

We respectfully ask for expeditious approval of this non-standard location, as we have to be drilling across January 31, 1988.

If you have any questions concerning this matter, please do not hesitate to call me at 505-748-1471.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

Dear Mike:

I am enclosing all of the information on the captioned that I warned you was coming.

I am also sending back all of the information on the non-standard proration unit that you had returned to me. The proration unit will be the same, even tho the location moved. We do still need this approved.

You will notice that I notified all of the off-set operators by Federal Express rather than certified mail. I thought that this might give us a little extra time.

Please keep in mind that we need to be drilling over January 31st. I realize that this is going to be tough to get approved by then, but just maybe we can do it. I will keep in touch with you to see how it is progressing.

Mike, I really do appreciate all the help that you have given me with this. If you have any questions, please call me.

Thanks again.

Dear Mr. Collins:

In trying to get the Oil Conservation Division to approve the above captioned non-standard location, I was in contact with Mr. Larry Smith of Hamon Operating Company in Dallas, Texas. He advised me that Caprock Oil and Gas had bought Hamon Operating out in the area of our location.

Enclosed you will find copies of my letter to the Oil Conservation Division, a copy of the survey plat, a topographic map showing the location and a lease map showing the offset operators. Also enclosed is a waiver to be signed stating that you have no objections to the proposed non-standard location.

This well is already drilling, as I received verbal permission from the Oil Conservation Division to begin drilling activities, as our lease expired on January 31, 1988. They will not issue an order number until all the waivers have been received or until the 30 day time period is up. Mr. Collins, your waiver is the only one that they have not received. I would appreciate it, if you have no objections, if you would return the waiver as soon as possible after receiving it.

Should you have any questions regarding this matter, please do not hesitate to call.

Thank you.

Very truly yours,

DAMAGE OR LOSS

We are liable for no more than \$100 per package in the event of a loss or damage to the contents of a package. If the actual loss is greater than \$100, we will pay the actual loss in the event of a claim. We charge .30¢ for each additional \$100 of declared value up to the maximum of \$5000. If the actual loss is greater than \$5000, we will pay the actual loss. We make no expressed or implied warranties.

DELAY

There is always a risk of delay in delivery of any delivery in the event of a late departure of any Federal Express aircraft. We will not be responsible for any delay in delivery of any delivery in the event of a late departure of any Federal Express aircraft. We will not be responsible for any delay in delivery of any delivery in the event of a late departure of any Federal Express aircraft.

CONSEQUENTIAL DAMAGES

We will not be responsible or liable for any loss or damage resulting from delay, non-delivery or damage to a package, except as noted above. This includes loss of sales, profits, or other consequential damages. Such damages are called consequential damages.

Dear Sir:

Please be advised that a review of Phillips' records both in this office and our Houston office reflects that we do not own an interest in Lots 15 and 16, Section 4, T-21S, R-35E, Eddy County, New Mexico. Therefore, please accept this letter as confirmation that Phillips Petroleum Company has no objections to the well described in Yates Petroleum Corporation's January 19, 1988, letter located as described in the above-stated reference.

Very truly yours,
