Corrected
Administrative Order NSL-3205-A(SD)

Dear Mr Newell:

It has been called to my attention that Division Administrative Order NSL-3205-A(SD), dated May 27, 1993 does not state the intended order of the Division. The final paragraph on page 2 being one in the same should be amended to read in its entirety as follows:

"Also, you are hereby authorized to simultaneous dedicate Jalmat Gas production from the H. S. Record WN Well No. 3 with the H. S. Record WN Well Nos. 1, 2, and 6. Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from all four wells in any proportion."

I apologize for any inconvenience this error my have caused.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael E. Stogner".

Administrative Order NSL-3205-A(SD)

Dear Mr. Newell:

Reference is made to your application dated March 18, 1993, for an unorthodox Jalmat gas well location in an existing non-standard 320-acre gas spacing and proration unit (GPU) for said Jalmat Gas Pool comprising the S/2 of Section 10, Township 22 South, Range 36 East, NMPM, Lea County, New Mexico. Said GPU was authorized by Division Order NSP-1544, dated September 27, 1988 and had dedicated thereon the H. S. Record WN Well No. 1 located in Unit P of said Section 10.

By Division Order SD-91-1, the H. S. Record WN Well No. 6 was recompleted to the subject GPU from the South Eunice Seven Rivers Queen Pool and located at a standard location 1980 feet from the South line and 2055 feet from the East line (Unit P) of said Section 10.

By Division Order NSL-3205(SD), dated December 4, 1992, an additional well, the H.S. Record "WN" Well No. 2 located in Unit M at an unorthodox gas well location 560 feet from the South line and 660 feet from the West line of said Section 10, was included in the 320-acre Jalmat spacing unit.

By authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Jalmat Gas Pool, as promulgated by Division Order No. R-8170 as amended, the following described well, to be recompleted from the South Eunice-Seven Rivers-Queen Pool and located at an unorthodox gas well location is hereby approved:

*H.S. Record WN Well No. 3
1980' FSL - 660' FWL (Unit L) of said Section 10.*

Administrative Order NSL-3205-A(SD)

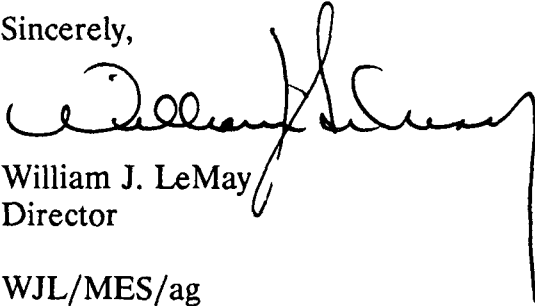

ARCO Oil and Gas Division

Page 2

Also, you are hereby authorized to simultaneously dedicate Jalmat Gas production from the H.S. Record WN Well No. 2 with the H.S. Record WN Well Nos. 1 and 6. Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from all of said wells in any proportion.

Sincerely,

A handwritten signature in black ink, appearing to read 'William J. LeMay', with a long vertical line extending downwards from the end of the signature.

Attention: Kevin D. Renfro, Operations/Analytical Engineer

Administrative Order SD-91-1

Dear Mr. Renfro:

Per your letter dated April 2, 1991, you are hereby authorized to simultaneously dedicate Jalmat Gas Pool production to the previously approved non-standard 320-acre gas spacing and proration unit comprising the S/2 of Section 10, Township 22 South, Range 36 East, NMPM, Lea County, New Mexico (Division Administrative Order NSP-1544, dated September 27, 1988), from the existing H.S. Record "WN" Well No. 1 located at a standard gas well location 990 feet from the South and East lines (Unit P) of said Section 10 and to your H.S. Record "WN" Well No. 6 located at a standard gas well location 1980 feet from the South line and 2055 feet from the East line (Unit J) of said Section 10. It is my understanding that the No. 6 well is currently completed in the South Eunice Seven Rivers Queen Pool as a producing oil well and will be properly plugged back and recompleted up-hole into the Jalmat Gas Pool upon issuance of this order.

Further, you are hereby permitted to produce the allowable assigned said 320-acre unit from both wells in any proportion.

Sincerely,

A handwritten signature in cursive script, reading "William J. LeMay".
