RE: *Application for non-standard gas proration unit: Prichard Federal Well No. 7, 1185' FSL - 1200' FWL (Unit N), 6-T29N-R8W, Basin-Fruitland Coal Gas Pool, San Juan County, New Mexico*

Dear Mr. White:

We may not process the subject application for a non-standard gas proration unit until the required information or plat(s) checked below are submitted.

- ☒ A plat must be submitted clearly showing the ownership of the offsetting leases.
- ☒ A statement must be submitted that offset operators have been notified of the application by certified mail.
- ☐ A plat must be submitted fully identifying the topography necessitating the non-standard location.
- ☒ Other: It appears that this well is at an unorthodox location because of its distance from the East boundary of the proposed proration unit. Also, our records indicate that the proposed proration unit comprising Lots 3, 4, 5, 6 and 7, the SE/4 NW/4, and E/2 SW/4 of Section 6 consist of 199.00 acres. Where are the acreage figures shown on your C-102 from?

Sincerely,

Michael E. Stogner

Re: Non-Standard Proration Unit
Prichard Federal, Well #7
Sec. 6-~~30N~~-9W San Juan, NM
29-10-

Dear Mike,

The west half of section 6 contains 199 acres. This qualifies us a non-standard unit. A plat and certified statement is attached. The acres on the plat are highlighted in yellow.

All offset operators were notified listed on the attached certified listing.

If you have any questions, please call me at (713)968-3654.

Best regards,

Ken White

Re: Non-Standard Proration Unit
Prichard Federal, Well #7
Sec. 6-30N-9W San Juan, NM

Dear Mr. Stagner,

The west half of section 6 contains 183 acres consisting of quarter - quarter sections that are contiguous by a common side. This qualifies us a non-standard unit. We request administrative approval of this non-standard unit.

All offset operators have been notified listed on the attached certified listing.

If you have any questions, please call me at (713)968-3654.

Best regards,
