Re: Administrative Approval For a non-standard gas protection unit in the Jalisco Gas Pool, Lea Co., New Mexico.

Dear Mr. McKay:

Hal J. Rasmussen Operating, Inc. respectfully requests administrative approval of a non-standard gas protection unit in the Jalisco Gas Field, Lea Co., New Mexico. Due to the recent purchase of the Area Block 4 1-A, section 17 N23E, R83E, as a Federal Gas Well Test I, Rasmussen Operating, Inc. requests the formation of a 120 acre non-standard gas protection unit consisting of the S 1/2 of the NE 1/4 and the NE 1/4 of the NE 1/4 of section 17, N23E, R83E, Lea Co., New Mexico, and proposes to dedicate 10% acreage to the Area Block 4 1-A, 4 2-A, and the 4 1-C. The 4 1-A and the 4 1-C are currently Wildcat oil wells and 10% proposes to reclassify these to the gas producing section of the Pecos and the Upper Valley.

A plot showing the location of the above wells and the proposed 120 acre protection unit along with offset operations identified is included. All offset operations have been approved of this application by certified well and return analysis will be provided to Santa Fe when received.

If you have any questions or need any further information, please contact Donnie Wilkins at (915) 687-1664.

Sincerely,

Donnie Wilkins
