RE: Application for Non-Standard
Proration Units
Township 26 North, Range 13 West
Sections 18 and 19
San Juan County, New Mexico

Dear Mr. Stogner:

Maralex Resources, Inc. (Maralex) hereby requests administrative approval for four (4) non-standard proration units in Sections 18 and 19, T26N-R13W, San Juan County, New Mexico. Maralex requests the designated proration units for its proposed four (4) Fruitland coal wells in Sections 18 and 19, T26N-R13W be as follows:

The N/2 of Sections 18 and 19 be Lots 1, 2, 5, 6, and the NE/4 (320 acres). The S/2 of Sections 18 and 19 be Lots 7, 8, 11, 12 and the SE/4 (320 acres).

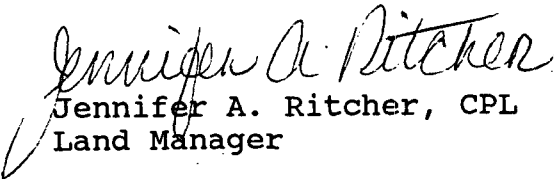

The non-standard unit and the unorthodox size is necessitated by a variation in the legal subdivision of the U. S. Public Land Surveys (see attached copy of OG plat).

Attached is a list of the names of the affected offset operators and all operators owning interests in Sections 18 and 19, T26N-R13W. These operators have been sent a copy of this application by certified mail and advised to notify the Commission of any objections within thirty days.

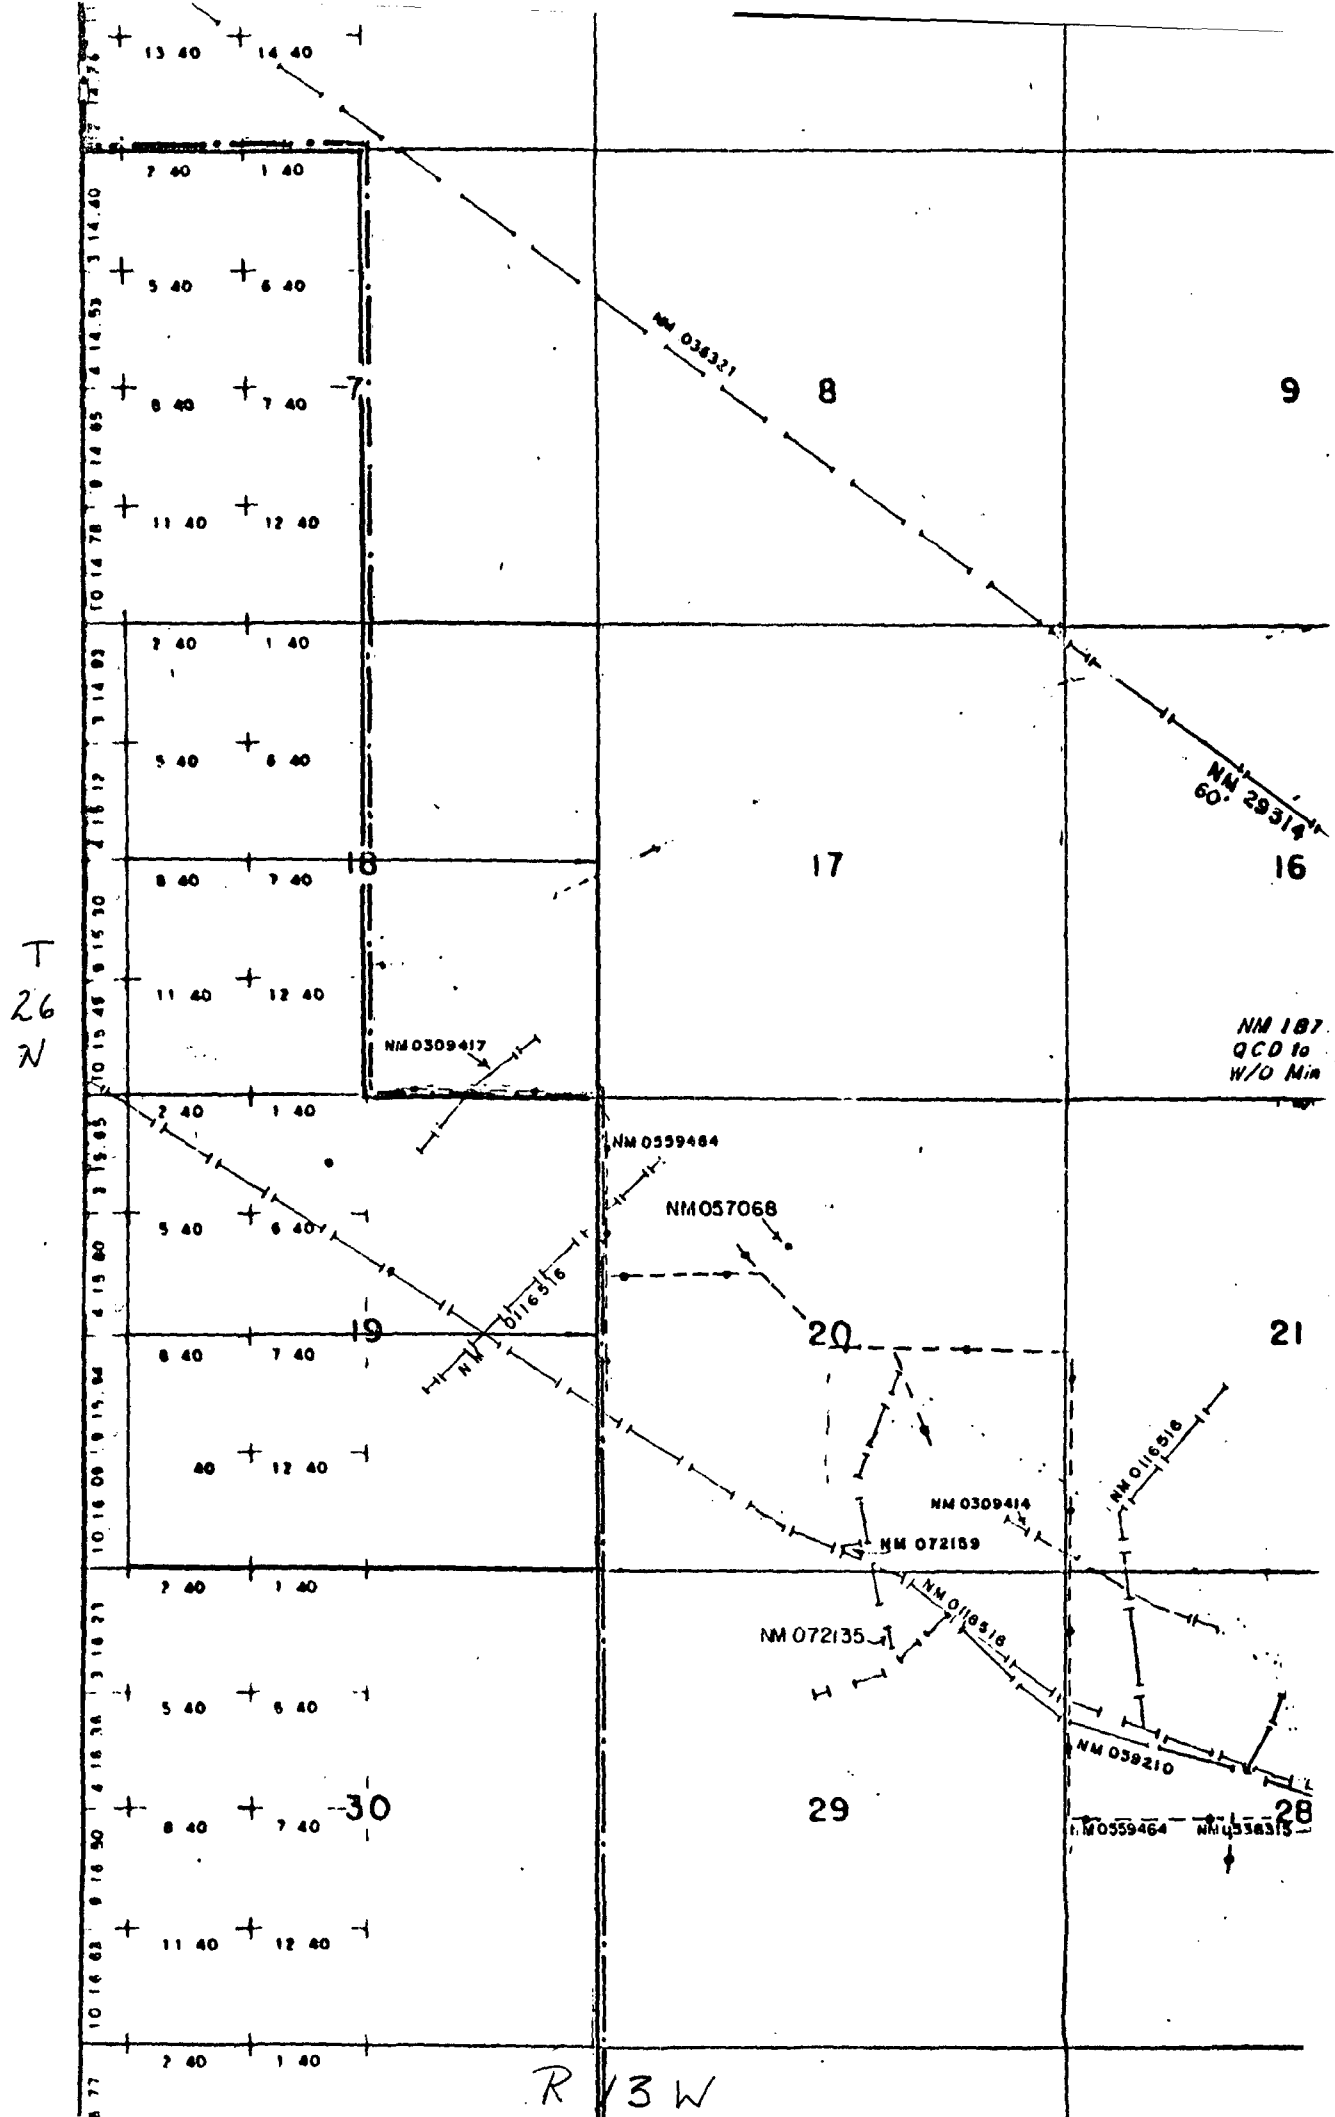

If you have any questions or need anything further,
please do not hesitate to contact me at the Golden telephone
number shown above.

Sincerely,

MARALEX RESOURCES, INC.

Jennifer A. Ritcher, CPL
Land Manager

RE: Application for Non-Standard
Proration Unit
T26N-R13W
Sections 18 and 19
San Juan County, New Mexico

TO WHOM IT MAY CONCERN:

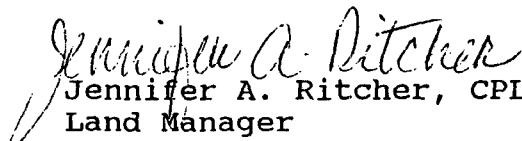

You are hereby notified that on March 16, 1995, Maralex Resources, Inc. filed an Application for Non-Standard Proration Unit with the New Mexico Oil Conservation Division for administrative approval of non-standard proration units for Sections 18 and 19, T26N-R13W, San Juan County, New Mexico (copy enclosed).

You are further notified that in the event no protest is received by the Director of the New Mexico Oil Conservation Division within thirty (30) days of receipt of this letter, the Director may grant administrative approval to the application.

If you have any questions or need anything further, please do not hesitate to contact me at the Golden address shown above.

Sincerely,

MARALEX RESOURCES, INC.

Subject: Maralex NSP Application
Date: Thursday, April 20, 1995 1:19PM

I whole heartedly agree to the idea of doing as much as we can to avoid hearings when issues can be addressed administratively. The Maralex application can probably be handled this way but I have some questions.

The purpose of the application is to leave out acreage which might otherwise have been interpreted as being included in a standard unit. Haven't we traditionally docketed this type of application for hearing? There is probably no direct correlative rights issue because the area being left out is unleased federal acreage and the rest of the acreage is federal, too. Do we have a precedent for this or are we setting a precedent? What if the unleased acreage was State or fee?

The Basin Fruitland Coal pool has special pool rules on spacing. It kind of looks more like the application may be an exception to the pool rules.

On the other hand, in the San Juan we have often created NSP's ahead of development to group together odd tracts into near standard units in order to avoid disorderly development and prevent small tracts from being undeveloped. In the past we have required operators to file NSP applications when they wanted to include small portions of acreage created by survey adjustments in an otherwise standard unit. Given this practice it might have been better to just accept their plat!

The real question is 'how do we interpret what is a standard quarter or half section if it contains small tracts due to survey corrections?' It appears that we may not have been consistant in doing this.

I'm just thinking out loud here.
