**Re: Application for an 80-Acre Jalmat Gas NSPU to be
Dedicated to the Stevens B Wells No. 4 and 5
Located in the S/2 SW/4, Sec. 12, T-23S, R-37E,
Lea County, New Mexico**

36

Dear Mr. LeMay:

EXHIBIT A shows the 80 acres of the Stevens B lease in the S/W SW/4 of Section 12, Township 23S, Range 37E for which the 80-acre nonstandard proration unit is being requested. The two wells shown, Nos. 4 and 5, are currently completed in the Langlie Mattix Pool but are shut-in, having depleted the Langlie Mattix reserves at these locations.

Therefore, Conoco proposes to recomplate both of these wells to the Jalmat Gas Pool. Since the standard spacing for the Jalmat Gas Pool is 640 acres, this 80 acre tract requires approval as a NSPU with a .5 acreage factor and simultaneous dedication to the Stevens B Wells No. 4 and 5.

EXHIBITS B and C are well location and acreage dedication plats for Wells No. 4 and 5 showing that both recompleted wells will be at standard locations for Jalmat Gas Wells in an 80-acre nonstandard spacing unit.

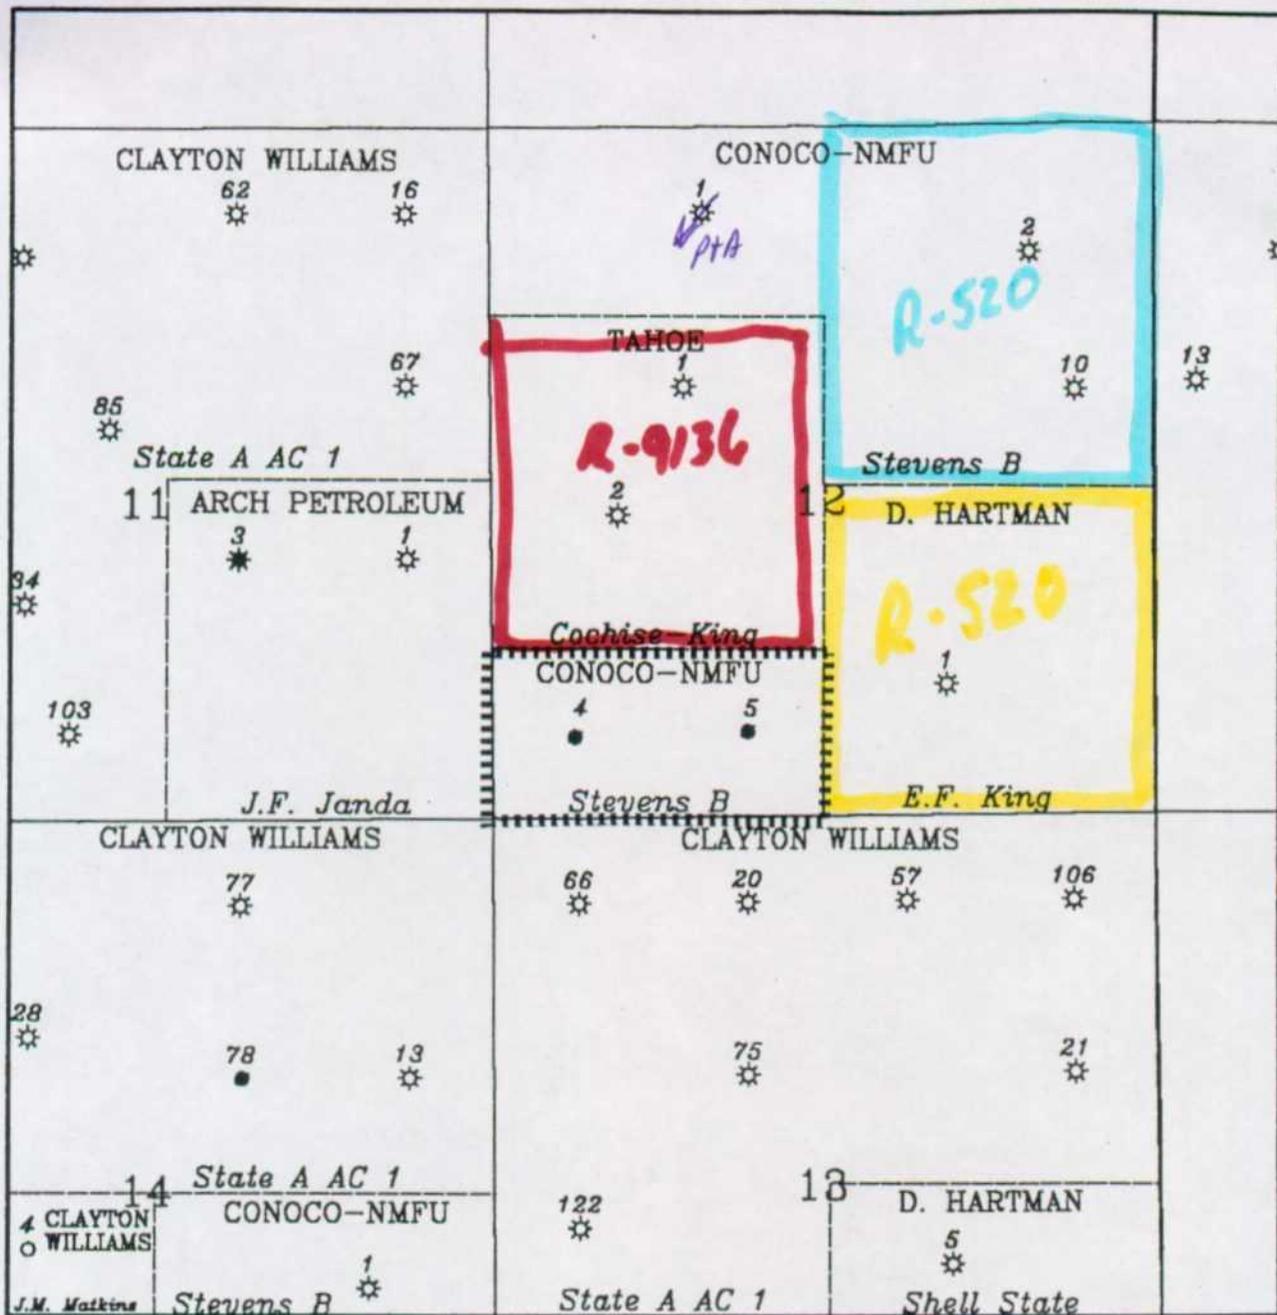

EXHIBIT A also indentifies the offset operators to this 80-acre tract whose names and addresses are listed in EXHIBIT D. A copy of this application was mailed by certified mail to each of these operators as documented by copies of the certified mail receipts in EXHIBIT E.

Thank you for your help in this matter. If I can be of any further assistance, please call at (915) 686-6548.

Very truly yours,

Jerry W. Hoover
Sr. Conservation Coordinator
