ATTN: Mr. Chris Williams

RE: Special Order Request  
Non Standard Proration Unit  
Jalmat Gas Field  
Lea County, New Mexico

Dear Mr. Williams:

Permian Resources, Inc. ("Permian") is the operator of the following well which currently produces out of the Langlie Mattix Queen zone:

Harrison #3, 1650' FSL, 1650' FWL  
Section 22, Township 25 South, Range 37 East,  
Lea County, New Mexico  
Perforations: 3275-3377 (Queen)  
Completed 9/15/38

This current zone has become marginal to operate in the current Langlie Mattix zone. The company has identified potential gas pay in the upper Yates-Seven Rivers zones and would like to re-complete from that zone. If productive those zones the well would be reclassified into the Jalmat Field.

Jalmat Gas field rules call for a 640-acre proration unit. Permian is asking the Oil Conservation Commission to amend that rule for a Non-Standard Proration Unit to encompass the 120 acres it owns under common ownership. That proration unit will encompass the acreage below.

North Half of Southeast Quarter (N/2 SE/4) of Section 22,  
Southwest Quarter of Southwest Quarter (SW/4 SW/4) of Section 23,  
Township 25 South, Range 37 East,  
Lea County, New Mexico

We have included a listing of the active Jalmat offset operators, copies of letters to those operators, and a Form C-102 plat showing the location of the dedicated lands in proposed Non-Standard Proration Unit.

P. O. BOX 590 • MIDLAND, TEXAS 79702-0590  
PHONE: (915) 685-0113 • FAX: (915) 685-3621

Page 2

We appreciate your timely review of this matter since we would like to begin work on this well to satisfy time and work commitments which have been submitted to the BLM and OCD.

If you have any questions please feel free to call.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert Marshall".

Robert Marshall  
Vice President

RE: Special Order Request  
Non Standard Proration Unit  
Jalmat Gas Field  
Lea County, New Mexico

Gentlemen:

As required by the New Mexico Oil Conservation Commission, we are sending this letter as notification of our intention to receive a Non-Standard Proration in the Jalmat Gas Field.

Permian Resources, Inc. ("Permian") is the operator of the following well which currently produces out of the Langlie Mattix Queen zone:

Harrison #3, 1650' FSL, 1650' FWL  
Section 22, Township 25 South, Range 37 East,  
Lea County, New Mexico  
Perforations: 3275-3377 (Queen)  
Completed 9/15/38

This current zone has become marginal to operate in the current Langlie Mattix zone. The company has identified potential gas pay in the upper Yates-Seven Rivers zones and would like to re-complete from that zone. If productive those zones the well would be reclassified into the Jalmat Field.

Jalmat Gas field rules call for a 640-acre proration unit. Permian is asking the Oil Conservation Commission to amend that rule for a Non-Standard Proration Unit to encompass the 120 acres it owns under common ownership. That proration unit will encompass the acreage below.

North Half of Southeast Quarter (N/2 SE/4) of Section 22,  
Southwest Quarter of Southwest Quarter (SW/4 SW/4) of Section 23,  
Township 25 South, Range 37 East,  
Lea County, New Mexico

We have included a listing of the active Jalmat offset operators, copies of letters to those operators, and a Form C-102 plat showing the location of the dedicated lands in proposed Non-Standard Proration Unit.
