Gentlemen:

Cross Timbers Operating Company hereby requests administrative approval of the following 40 acre non-standard proration unit and non-standard location (see attached Form C-102 plat):

Ollie J. Boyd #2
NW/4 NW/4 (Unit D) Section 23-22S-37E
330' FNL & 440' FWL
Lea County, New Mexico
Blinebry Oil and Gas Pool (Gas)

Notice of this application has been given to the offset operators as shown on the attached list and plat by certified mail.

This well was recently recompleted from the Blinebry to the Paddock and we are simultaneously filing for a Downhole Commingling Permit to add the Blinebry formation.

As a Blinebry gas completion, the well was spaced on 160 acres. Cross Timbers drilled the #7 and 8 wells located in the NE/4 NW/4 and SW/4 NW/4, respectively, and both are producing from the Blinebry Oil & Gas (Oil) Pool. Therefore we are requesting administrative approval for a 40 acre non-standard proration unit and non-standard location. Please note that a non-standard location was approved for this well on April 21, 1977 by Order NSL-838.

We look forward to your approval and please call me at (817) 877-2336 with any questions.

Yours very truly,

Edwin S. Ryan, Jr.
