APPLICATION

MEWBOURNE OIL COMPANY ("Mewbourne"), through its undersigned attorneys, hereby makes application pursuant to the provisions of N.M.Stat. Ann. 70-2-17, (1978), for an order pooling all mineral interests in all formations and/or pools developed on 320-acre spacing in the E/2 of Section 7, Township 21 South, Range 35 East, N.M.P.M., Lea County, New Mexico, which includes but is not necessarily limited to the Undesignated Osudo-Morrow Gas Pool. In support of this application, Mewbourne states:

1. Mewbourne Oil Company is a working interest owner in the E/2 of said Section 7 and has the right to drill thereon.
2. Mewbourne proposes to dedicate the above-referenced pooled spacing unit to its Osudo "7" State Com Well No. 1 to be drilled from at a location 1980 feet from the South and East lines of said Section 7 to a depth of approximately 12,500 feet to test all formations developed on 320-acre spacing from the surface to the base of the Morrow.
3. Mewbourne has sought and been unable to obtain a voluntary agreement for the development of these lands from certain working interest owners in the subject spacing units who are identified on Exhibit A to this application.
4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit Mewbourne to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled and Mewbourne Oil Company should be designated the operator of the well to be drilled.

WHEREFORE, Mewbourne Oil Company requests that this application be set for hearing before an Examiner of the Oil Conservation Division on December 16, 2004 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Mewbourne Oil Company operator of these units and the well to located thereon,
- C. authorizing Mewbourne to recover its costs of drilling and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a 200% penalty for the risk assumed by Mewbourne Oil Company in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well, and

Respectfully submitted,
