APPLICATION

(a) The NE¼NE¼ of Section 14 to form a standard 40 acre oil spacing and proration unit for any and all formations and/or pools developed on 40 acre spacing within that vertical extent, including the Undesignated North McMillan-Grayburg Pool;

(b) The NE¼ of Section 14 to form a standard 160 acre gas spacing and proration unit for any and all formations and/or pools developed on 160 acre spacing within that vertical extent; and

(c) The E½ of Section 14 to form a standard 320 acre gas spacing and proration unit for any and all formations and/or pools developed on 320 acre spacing within that vertical

3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E½ of Section 14 for the purposes set forth herein.

4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the E½ of Section 14, pursuant to NMSA 1978 §70-2-17.

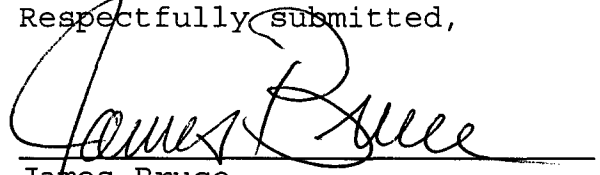

5. The pooling of all mineral interests underlying the E½ of Section 14, as set forth above, will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the E½ of Section 14 from the surface to the base of the Morrow formation;
- B. Designating Chi Operating, Inc. as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost thereof among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and

E. Setting a charge of cost plus 200% for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.
