APPLICATION

1. Applicant is a working interest owner in the E½ of Section 20, and has the right to drill a well thereon.

2. Applicant proposes to drill its New Man Fed. Com. Well No. 1, at an orthodox location in the SE¼SE¼ of Section 20, and seeks to dedicate the E½ of Section 20 to the well to form a standard 320 acre gas spacing and proration unit for all pools or formations developed on 320 spacing within that vertical extent, including the Undesignated Willow Lake-Atoka Gas Pool, Undesignated West Malaga-Atoka Gas Pool, and Undesignated West Malaga-Morrow Gas Pool.

3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E½ of Section 20 for the purposes set forth herein.

4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order

pooling all mineral interest owners in the E½ of Section 20, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interests underlying the E½ of Section 20 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

- D. Approving actual operating charges and supervision costs, together with a provision adjusting the rates as provided in the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,
