RE: CASE NUMBER 14664 FRONTIER FIELD SERVICES, LLC MALJAMAR AGI #1

This letter is to advise you that Frontier Field Services, LLC ("Frontier") filed the enclosed application on May 16, 2011, with the New Mexico Oil Conservation Division ("NMOCD" or "the Division") seeking authorization to drill an Acid Gas Injection (AGI) well at the Frontier Gas Processing Plant near Maljamar, New Mexico. The proposed well will be located 130 feet from the South line and 1813 feet from the East line of Section 21, Township 17 South, Range 32 East, in Lea County. Frontier plans to inject up to 2MMCFD of acid gas and CO₂ from the Plant at a maximum pressure of 2973 psi into this well into the lower Wolfcamp Formation and possibly into the lower Leonard Formation, approximately 9300 to 10000 feet below the surface. The proposed well will serve as the disposal well for acid gas and CO₂ currently being flared at the Frontier Maljamar Plant.

This application (Case Number 14664) has been set for hearing before a Division Examiner at 8:15am on June 23, 2011, in Porter Hall at the NMOCD's Santa Fe office located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by Frontier's application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the application at a later date.

A party appearing at the hearing is required by the Division's rules to file a Pre-Hearing Statement with the NMOCD's Santa Fe office no later than one week prior to the hearing date. This statement must be served on counsel for Frontier and on all other parties and should include: your name and the name of your attorney, if any; a concise statement of the case; the names of all witnesses you will call to testify at the hearing; the approximate time you will need to present your case; and an identification of any procedural matters that need to be resolved prior to the hearing.

If you have any questions concerning this application, you may contact Mr. Alberto Gutierrez at (505) 842-8000 at Geolex, Inc.; 500 Marquette Avenue NW, Suite 1350; Albuquerque, New Mexico 87102.

Sincerely,
Geolex, Inc.
