Re: Matador Production Company – Kathy Coleman 14-23S-27E RB #206H Well (the “Well”)  
Participation Proposal/Offer to Lease  
Section 14, Township 24 South, Range 28 East  
Eddy County, New Mexico

RKI Exploration & Production, LLC:

MRC Permian Company (“MRC”) proposes the drilling of Matador Production Company’s Kathy Coleman 14-23S-27E RB #208H well, located in Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico, to the Wolfcamp formation.

In connection with the above, please note the following:

The estimated cost of drilling, testing, completing, and equipping the Well is \$5,920,455.00 as itemized on the enclosed Authority for Expenditure (“AFE”) dated July 1, 2016.

The proposed surface location of the Well is approximately 1,852’ FNL and 361’ FEL of Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico. The proposed bottom hole location of the subject well is approximately 1,651’ FNL and 240’ FWL of Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico.

The Well will have a targeted interval within the Wolfcamp formation. We plan to drill the Well horizontally in the Wolfcamp (~9,250 TVD) to a Total Measured Depth of approximately 14,350’ resulting in a productive lateral of approximately 4,500’.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC will advise you of any such modifications.

RKI Exploration & Production, LLC will own an approximate 5.976562% working interest in the Well, subject to title verification.

MRC requests that you indicate your election to participate in the drilling and completion of the Well in the space provided below, sign and return one (1) copy of this letter to the undersigned.

MRC is proposing to drill the Well under the terms of the modified 1989 AAPL form of Operating Agreement which is enclosed for your review and approval. The enclosed Operating Agreement dated August 2, 2016, by and between Matador Production Company, as operator and MRC Permian Company et al, as Non-Operators covers Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico and has the following general provisions:

- 100/300/300 Non-consenting penalty
- \$7,000/\$700 Drilling and Producing rate
- Matador Production Company named as Operator

If your election is to participate in the drilling and completion of the Well, please sign and return a copy of the enclosed AFE within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFE is only an estimate of costs to be incurred and by electing to participate in the Well, each working interest owner shall be responsible for its proportionate share of all costs incurred.

Thank you for your consideration of this proposal. Please contact me if you have any questions.

Sincerely,

  
Cassie Hahn

Re: Matador Production Company – Kathy Coleman 14-23S-27E RB #208H Well (the “Well”)  
Participation Proposal/Offer to Lease  
Section 14, Township 24 South, Range 28 East  
Eddy County, New Mexico

Dear Caleb:

MRC Permian Company (“MRC”) proposes the drilling of Matador Production Company’s Kathy Coleman 14-23S-27E RB #208H well, located in Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico, to the Wolfcamp formation.

In connection with the above, please note the following:

The estimated cost of drilling, testing, completing, and equipping the Well is \$6,057,405.00 as itemized on the enclosed Authority for Expenditure (“AFE”) dated July 1, 2016.

The proposed surface location of the Well is approximately 288’ FSL and 339’ FEL of Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico. The proposed bottom hole location of the subject well is approximately 331’ FSL and 240’ FWL of Section 14, Township 23 South, Range 27 East, Eddy County, New Mexico.

The Well will have a targeted interval within the Wolfcamp formation. We plan to drill the Well horizontally in the Wolfcamp (~9,250 TVD) to a Total Measured Depth of approximately 14,350’ resulting in a productive lateral of approximately 4,500’.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC will advise you of any such modifications.

Oak Valley Mineral and Land, LP will own an approximate 3.826050% working interest in the Well, subject to title verification.

MRC requests that you indicate your election to participate in the drilling and completion of the Well in the space provided below, sign and return one (1) copy of this letter to the undersigned.

As an alternative to participation in the well Matador is interested in leasing your mineral interest for \$1,500/acre, 1/4 royalty, and a 3 year term on the lease form enclosed. Should you elect to lease your minerals, please sign the enclosed lease, in the presence of a notary public, and return it to my attention.

If your election is to participate in the drilling and completion of the Well, please sign and return a copy of the enclosed AFE within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFE is only an estimate of costs to be incurred and by electing to participate in the Well, Barbara Brown shall be responsible for their proportionate share of all costs incurred.

Please contact me if you have any questions.

Sincerely,

Cassie Hahn

Enclosure(s)
