

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF CHISHOLM ENERGY OPERATING, LLC
FOR A NON-STANDARD SPACING AND
PRORATION UNIT AND COMPULSORY POOLING,
LEA COUNTY, NEW MEXICO.**

CASE NO. 16026

APPLICATION

Chisholm Energy Operating, LLC, ("Chisholm") through its undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order (1) creating a 240-acre, more or less, spacing and proration unit comprised of the E/2 W/2 of Section 14 and the E/2 NW/4 of Section 23, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico; and (2) pooling all uncommitted interests in the Bone Spring formation. In support of its application, Chisholm states:

1. Chisholm Energy Operating, LLC (OGRID No. 327137) is a working interest owner in the proposed non-standard spacing unit and has the right to drill thereon.
2. Chisholm proposes to dedicate the above-referenced spacing and proration unit as the project area for its proposed **Outland 14-23 State 2BS 3H Well**, which will be horizontally drilled from a surface location in the NE/4 NW/4 (Unit C) of Section 14 to a standard bottom hole location in the SE/4 NW/4 (Unit F) of Section 23.
3. The completed interval for this well will remain within the 330-foot offset as required by the Statewide rules for oil wells.

4. Chisholm has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

6. In order to permit Chisholm to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in this non-standard spacing unit should be pooled and Chisholm Energy Operating, LLC should be designated the operator of this proposed horizontal well and spacing unit.

WHEREFORE, Chisholm requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 22, 2018, and, after notice and hearing as required by law, the Division enter an order:

- A. Creating a 240-acre, more or less, spacing and proration unit E/2 W/2 of Section 14 and the E/2 NW/4 of Section 23, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Pooling all uncommitted interests in the non-standard spacing and proration unit;
- C. Designating Chisholm Energy Operating, LLC the operator of this non-standard spacing unit and the horizontal well to be drilled thereon;
- D. Authorizing Chisholm to recover its costs of drilling, equipping, and completing the well;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

- F. Imposing a 200% penalty for the risk assumed by Chisholm in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

CHISHOLM ENERGY OPERATING, LLC**

CASE 16026

Application of Chisholm Energy Operating, LLC for a non-standard spacing and proration unit and compulsory pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order (1) creating a non-standard 240-acre, more or less, spacing and proration unit comprised of the E/2 W/2 of Section 14 and the E/2 NW/4 of Section 23, Township 21 South, Range 34 East, NMPM, Lea County, New Mexico. Said non-standard unit is to be dedicated to applicant's proposed **Outland 14-23 State 2BS 3H Well**, which will be horizontally drilled from a surface location in the NE/4 NW/4 (Unit C) of Section 14 to a standard bottom hole location in the SE/4 NW/4 (Unit F) of Section 23. The completed interval for this well will remain within the 330-foot offset as required by the Statewide rules for oil wells. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Chisholm Energy Operating, LLC as operator of the well and a 200% charge for risk involved in drilling said well. Said area is located approximately 16 miles west of Eunice, New Mexico.
