Dear Ms. Binon:

The Encana 2018 Plan of Development for the Nageezi Unit (NU) located in San Juan County, New Mexico is approved as of March 7, 2018 because there are four horizontal Mancos wells planned, the Nageezi #501H, #502H, #503H and #504H. There were three horizontal Mancos wells the NU #221, #405 and #406 drilled and completed in 2017.

The NU contains 10,415 acres of Federal, State, and Navajo Allotted minerals and has a total of nine producing Mancos horizontal wells with first production occurring from the NU #320H & #321H both in Nov. of 2014.

If you have questions regarding the above unit, please contact me at (505) 564-7740 or jhewitt@blm.gov.

Sincerely,

Richard Fields,
Farmington Field Manger
