Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to form a 320-acre Working Interest Unit ("WIU") covering the W/2 of the referenced Section 22 for oil and gas production. Apparently you own 34.579199% interest in the S/2NW/4 and the NW/4NW/4 (41.495039 net acres) and 5.194468% interest in the NE/4NW/4 (2.077787 net acres) of the referenced Section 22. Accordingly, you would own 13.616508% working interest in the proposed WIU (41.495039 net acres + 2.077787 net acres = 43.572826 net acres / 320 unit acres = 13.616508% interest in the WIU).

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the referenced well at the above referenced surface location (SL) to the referenced bottom hole location (BHL). The proposed well will be drilled to an approximate true vertical depth (TVD) of 11,483 feet subsurface to evaluate the Bone Spring Formation. The proposed well will have a total measured depth (TMD) of approximately 16,218 feet. The W/2W/2 of the referenced Section 22 will be dedicated to the well as the proration unit.

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to form a 320-acre Working Interest Unit ("WIU") covering the W/2 of the referenced Section 22 for oil and gas production. Apparently Siana Oil & Gas Co., LLC ("Siana") owns 29.384731% interest in the NE/4NW/4 (11.753892 net acres) of the referenced Section 22. Accordingly, Siana would own 3.673091% working interest in the proposed WIU (29.384731% interest X 160 gross acres = 11.753892 net acres/320 unit acres = 3.673091% interest in the WIU).

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the referenced well at the above referenced surface location (SL) to the referenced bottom hole location (BHL). The proposed well will be drilled to an approximate true vertical depth (TVD) of 11,483 feet subsurface to evaluate the Bone Spring Formation. The proposed well will have a total measured depth (TMD) of approximately 16,218 feet. The W/2W/2 of the referenced Section 22 will be dedicated to the well as the proration unit.

Regarding the above enclosed for your further handling is our AFE dated March 7, 2018 for the above referenced proposed well. In the event Siana elects to participate in the proposed WIU and well, please execute the enclosed AFE and return to me within thirty (30) days. Our Operating Agreement to follow.

Hi Tyler – I believe he will participate, but I will be talking with him later today and if that's not right I will get back with you.

I do have some questions:

1. The 2 Gazelle wells are being drilled back to back, correct?
2. Are they being drilled to different Bone Springs sands (1,2 or 3)?
3. Can I get Mewbourne's drilling plan for the next 2 – 3 years in Sections 10, 15 and 22?

Thank you!

Karen,

I understand you just got your eyes on the proposal letters and are evaluating. Could you give me any hint at whether Siana and Tom Ragsdale will participate? We're trying to get this unit ready for wells to be drilled in June. Please let me know if you have any questions or need additional information.

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to form a 320-acre Working Interest Unit ("WIU") covering the W/2 of the referenced Section 22 for oil and gas production. Apparently Stroube Energy Corporation ("Stroube") owns 1.270439% interest in the NW/4 (2.032702 net acres) of the referenced Section 22. Tyler,

I'm helping out Frank Stroube with some of his land work (we work in the same office) and I'm trying to confirm Stroube Energy Corporation's interest in the W/2 of 22-23s-34e. He returned both executed AFE's to participate in the wells, but have you guys had a drilling title opinion done yet? If so, could you please shoot it to me or the pages related to his interest? I want to make sure there aren't any curative requirements necessary for his interest so that we can get ahead of them if so.

Thank you so much!

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to form a 320-acre Working Interest Unit ("WIU") covering the W/2 of the referenced Section 22 for oil and gas production. Apparently 180 Petroleum, Inc. ("180") owns 0.301821% interest in the NW/4 (0.482914 net acres) of the referenced Section 22. Accordingly, 180 would own 0.150911% working interest in the proposed WIU (0.301821% interest X 160 gross acres = 0.482914 net acres/ 320 unit acres = 0.150911% interest in the WIU).

Mewbourne Oil Company ("Mewbourne") as Operator hereby proposes to drill the referenced well at the above referenced surface location (SL) to the referenced bottom hole location (BHL). The proposed well will be drilled to an approximate true vertical depth (TVD) of 10,438 feet subsurface to evaluate the Bone Spring Formation. The proposed well will have a total measured depth (TMD) of approximately 15,158 feet. The W/2W/2 of the referenced Section 22 will be dedicated to the well as the proration unit.

Regarding the above enclosed for your further handling is our AFE dated March 7, 2018 for the above referenced proposed well. In the event 180 elects to participate in the proposed WIU and well, please execute the enclosed AFE and return to me within thirty (30) days. Our Operating Agreement to follow.

In lieu of participating, Mewbourne hereby offers \$3,000 per net mineral acre for a three (3) year term assignment, delivering a 75% net revenue interest.

Should you have any questions regarding the above, please email me at tjolly@mewbourne.com or call me at (432) 682-3715.

Very truly yours,

Jim,

As discussed earlier today, Mewbourne has plans to drill two(2) Bone Spring horizontal wells in the W/2 of Section 22, T23S, R34E, Lea County, NM. See attached well proposals and AFE's in regarding said wells. As mentioned this earlier, we are trying to put this deal together quickly as the wells are planned for June. Please let me know as soon as possible of your election to participate if you choose to do so.

Thanks,

Jim,

After speaking with our reservoir engineer, it sounds like estimated prices to pipe the water from the Gazelle 22 area are \$1.00 per barrel to a third party's disposal well. The feedback I've gotten is that this area is not as watery as other areas we operate.

Thanks,
Tyler
