Updated to include the case numbers.

Mike,

You asked for several pieces of additional information following our hearing on October 4. Please find the following below/attached:

1. Description of the depth severance, which is **mutually agreed to by parties in instrument creating depth severance:**  
The stratigraphic equivalent of 11,915 feet measured depth being the top of the Third Bone Spring formation shown in that certain Dual Laterolog of the Stevens 11 #1 well (API No. 30-025-34246) located in Section 11-24S-33E, Lea County, New Mexico, to the base of the Bone Spring formation.  
Please note that this language was also included in our pooling application.
2. No depth severance exists with respect to the overriding royalty interest.
3. Please see attached exhibit showing geologic frac barriers (frac barriers are labeled and shaded in blue).
4. Notice was published as to all parties. The parties who were unlocatable are:  
Energex LLC  
Susan J Croft  
Nancy J Allen  
Susan Ryan  
John C Ryan IV  
Claire Chilton Lopez  
Edward T Muse

Thanks,  
Jordan
